Overview and Statistical Analysis

15% Set-Aside Goal Exceeded for State Purchasing Ohio Sets Record for Buying from Minority-Owned Businesses

Ohio is strongest when as many Ohioans as possible have an opportunity to share in our state's growing economic strength. The same is true for the way state government sources the goods and services needed to carry out its mission to serve Ohioans. The harder state government works to secure the best value for its purchases, from the widest possible range of suppliers, the better it is for taxpayers and the better it is for Ohio.

One way that state government does this is through the Minority Business Enterprise (MBE) program. The MBE program seeks to expand options for state purchasing by encouraging MBE-certified businesses, both small and large, to do business with the state. At the same time, state agencies are directed to source a portion of their goods and services from MBE-certified vendors. Since 2011, the state has made steady progress in expanding its base of suppliers by identifying minority businesses and encouraging them to work with the state to supply the goods and services it needs. As a result, during Fiscal Year 2015, a total of 17.21 percent of the state's purchases for goods and services (agencies, boards and commissions, combined) were set aside for MBE-certified businesses — the first time in the program's 35-year history that the state met its 15 percent MBE goal.

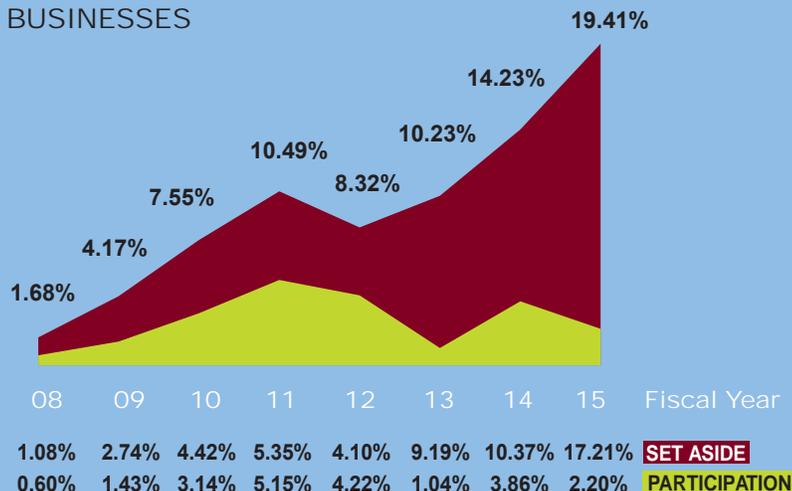

Agencies, boards and commissions spent a greater proportion of MBE-eligible expenditures with MBE-certified businesses than ever before – surpassing the 15 percent MBE goal for the first time in history.

- In Fiscal Year 2015, agencies, boards and commissions set aside 17.21 percent of their MBE-eligible expenditures for certified businesses.
- Another 2.20 percent was spent with certified businesses through open-market purchases.

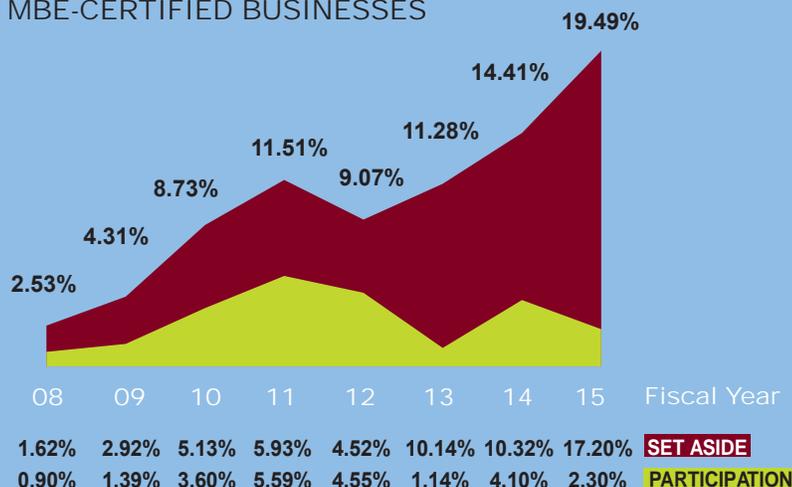

Cabinet agencies spent a greater proportion of MBE-eligible expenditures with MBE-certified businesses than ever before — surpassing the 15 percent MBE goal for the first time in history.

- In Fiscal Year 2015, cabinet agencies set aside 17.20 percent of their MBE-eligible expenditures for certified businesses. Another 2.30 percent was spent with certified businesses through open-market purchases.
- In Fiscal Year 2015, 20 of 24 agencies met the 15 percent goal for purchases from MBE-certified businesses, up from 17 agencies in Fiscal Year 2014.

RECORD: PERCENTAGE OF EXPENDITURES CABINET AGENCIES SPENT WITH MBE-CERTIFIED BUSINESSES

Boards and commissions spent a greater proportion of MBE-eligible expenditures with MBE-certified businesses than ever before — surpassing the 15 percent MBE goal for the first time in history.

- In Fiscal Year 2015, boards and commissions set aside 17.36 percent of their MBE-eligible expenditures for certified businesses. Another 1.07 percent was spent with certified businesses through open-market purchases.
- In Fiscal Year 2015, 44 of 50 state boards and commissions met the 15 percent goal for purchases from MBE-certified businesses, up from 41 boards and commissions in Fiscal Year 2014.

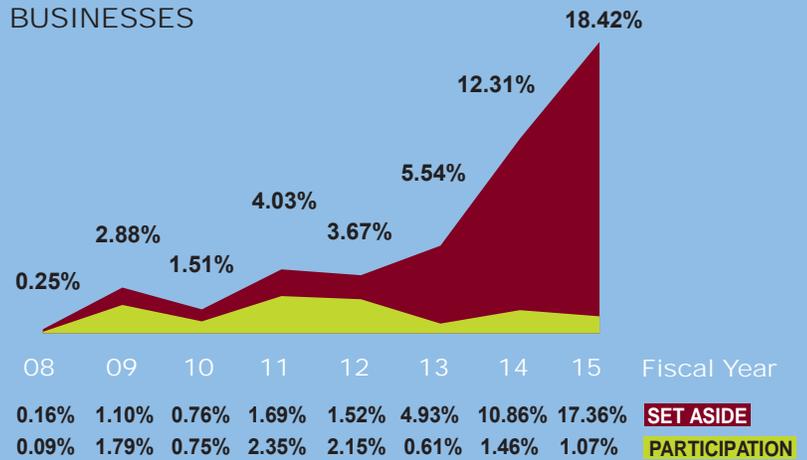

The State of Ohio spent more money with MBE-certified businesses than ever before.

- \$228.5 million spent in Fiscal Year 2015 (This includes spending set aside specifically for MBE-certified businesses as well as MBE-certified businesses which won contracts through open bidding.)
- This is an increase from \$165 million in Fiscal Year 2014* and from \$27 million in Fiscal Year 2008.

More MBE-certified businesses did work for the State of Ohio than ever before.

- 325 businesses in Fiscal Year 2015 (up from 282 businesses in Fiscal Year 2014 and 168 in Fiscal Year 2008.)

State Agency Contacts

Each state agency, board and commission has a designated Minority Business Enterprise (MBE) / Encouraging Diversity, Growth and Equity (EDGE) EEO Officer responsible for monitoring compliance with the MBE and EDGE programs and reporting of said compliance. The following pages include a roster of the MBE/EDGE EEO officers as well as each agency's procurement designee.

Please address all agency-specific questions to the officers at the addresses listed. The Equal Opportunity Division of the Ohio Department of Administrative Services maintains a list of the officers on its website as part of the Certified MBE/EDGE Business Toolkit, located in Quick Links at mbe.ohio.gov and edge.ohio.gov. The division updates the list frequently. Additionally, the list is in an Excel format to make it easy to merge the data into various correspondences.

MBE Contracts Administered by the Ohio Department of Administrative Services

From the purchases that the Ohio Department of Administrative Services (DAS) is required by law to make through competitive selection, DAS selects a number of contracts that are \$50,000 and above, the aggregate value of which equals approximately 15 percent of the estimated total value of all such contracts made each fiscal year. The following pages list all contracts administered by DAS for Fiscal Year 2016 that will be set-aside for completion among only certified MBE businesses.

State Agency – MBE Projection Plans

On the following pages, you will find the planned spending by category for all state agencies for Fiscal Year 2016 (July 1, 2015, to June 30, 2016). The overview has three columns: “Account Description,” “Total Purchase Amount” and “Includes Set-Aside Purchases.” These columns are alphabetized by “Account Description.” The “Total Purchase Amount” represents the dollar purchases made by the individual state agency. The “Includes Set-Aside Purchases” column designates whether the agency intends to spend any portion of the purchase as an MBE set-aside.

Exact MBE set-aside amounts can be found on the agencies’ specific projection plans, located on the Equal Opportunity Division’s website as part of the Certified MBE/EDGE Business Toolkit, located in Quick Links at mbe.ohio.gov. The division captures any amendments to the plans there. We hope this information will assist you as you adjust or create your business plans by giving you a basic idea of the dollars agencies plan to spend in your service or product area.

Expenditure Projections by Commodity Type

The Expenditure Projection section is an overview of all projected purchases for state agencies in Fiscal Year 2016. The overview has four columns: “Account Description,” “Agency,” “Total Purchase Amount” and “Includes Set-Aside.” These columns are alphabetized by “Description.” The “Total Purchase Amount” represents the projected dollar purchases made by an individual state agency. The “Includes Set-Aside” column designates whether the agency intends to spend any portion of the purchase as an MBE set-aside. If a state agency name is not listed in the “Agency” column, under the commodity type being reviewed, then it indicates that the agency plans no expenditures for the year in the commodity type. If a state agency name is listed twice in the “Agency” column, under the commodity type being reviewed, then it indicates that the agency plans both set-aside and non-set-aside expenditures for the year in the commodity type.

Appendices

On the following pages, you will find additional tools to help you maximize your certification. Included is information about responding to a request for proposal, the largest needed commodity types for certified vendors, as well as available resources through the Ohio Development Services Agency. We hope this information assists you as you adjust and/or create your own business plans in order to contract with the State of Ohio.

RESPONDING TO STATE OF OHIO REQUESTS FOR PROPOSALS

RECEIVING NOTIFICATIONS:

All registered Minority Business Enterprise (MBE) businesses are sent a Bid Notification email when a set-aside opportunity is posted on the Ohio Department of Administrative Services (DAS) website – each email contains a link to the opportunity. Certified MBE businesses should regularly check and verify the email address associated with their company's registration.

To learn about open-market opportunities, interested businesses should bookmark this Web page and check it regularly: procure.ohio.gov/proc/searchProcOpps.asp

DOWNLOADING AND READING REQUESTS FOR PROPOSALS:

Documents regarding DAS requests for proposals (RFPs), also known as competitive sealed proposals, are advertised on the DAS State Procurement website and are in one of two formats:

- a. Long Form – all Terms and Conditions, Cost Summary and forms for the contractor to complete are attached. Each form in the document is required to be completed and returned with the document at the time of bid opening; or
- b. Short Form – includes Background, Scope of Work, Mandatory Requirements, Scoring Criteria and Cost Summary. Terms and Conditions and forms for the contractor to complete are accessible through Web links within the document. Interested bidders should download these forms and return with the document at the time of bid opening.

TIMELINES:

RFP issued date – Date the RFP was posted to the DAS website;

Inquiry period begins – Date that interested bidders can post inquiries to the website;

Inquiry period ends – Date that inquiries can no longer be submitted through the website;

Pre-bid conference – Date that a pre-bid meeting or conference, if planned, is scheduled – may be mandatory attendance or strongly encouraged; and

Proposal due date – Date and time (Eastern Time) when sealed proposals are due. Sealed proposals received after that time will not be considered.

INQUIRIES:

Submitting an inquiry through the DAS State Procurement website is the only method of communication allowed during the time the RFP is posted, through the date the RFP is awarded.

KNOW:

- Scope of Work – Includes a summary of the background information of the project and work requirements and deliverables. Some requirements may be mandatory and must be met before the bidder moves to the evaluation phase;
- General Terms and Conditions – Signature on the front page of the short form and on the Contract page of the long form indicates the bidder has read, understands and agrees to these Terms and Conditions;
- Scoring Criteria – Alerts the bidder the specific areas that the consensus scoring team will evaluate. Includes a definition of the 0-5 scoring matrix and how points are assigned to each area; and
- Evaluation – Informs interested bidders of how the responses are evaluated. Each RFP is scored on its technical merit by a consensus team. One consensus score is arrived at for each bidder. Items other than cost are rated and scored. Cost is then scored. Award is made to the highest scoring bidder that is deemed responsive and responsible.

DOING BUSINESS WITH THE STATE:

- First-time bidders should obtain, complete and submit New Vendor forms to the Ohio Office of Budget and Management's Ohio Shared Services – ohiosharedservices.ohio.gov/Home.aspx;
- Bidders must assure that an Affirmative Action Plan is on file with the DAS Equal Opportunity Division – eodreporting.oit.ohio.gov/searchEODReporting.aspx;
- Bidders must include the appropriate Insurance Acord form with policy limits and additional statements as requested in the Terms and Conditions and/or Supplemental Terms;
- Each bid document describes how many copies of both the Technical portion and Cost Summary portions should be submitted. There should be one original set and the number of copies requested turned in on the bid open date/time; and
- Evaluation of the bids may take several weeks. No communication is allowed during that time.

MINORITY BUSINESS ENTERPRISE PROGRAM (MBE)

WHAT IS MBE?

The State of Ohio Minority Business Enterprise (MBE) program is designed to assist minority-owned businesses to obtain state government contracts through a set-aside procurement program for goods and services.

The State of Ohio developed the MBE program because of its commitment to making all state contracts, services, benefits and opportunities available without discriminating on the basis of race, color, religion, sex, national origin, disability, age or ancestry.

The state recognizes the need to encourage, nurture and support the growth of minority businesses to foster their development and increase the number of qualified competitors in the marketplace.

The MBE program establishes a 15 percent set-aside for state agencies, boards and commissions in awarding contracts to certified MBE businesses. The MBE program applies only to the procurement of goods and services.

The MBE program is for an individual, partnership, corporation or joint venture of any kind that is owned and controlled by U.S. citizens and residents of Ohio who are Black, American Indian, Hispanic or Asian.

5 STEPS TO MBE CERTIFICATION

1. Complete an online application at: mbe.ohio.gov.
2. Provide supporting documentation based on your business structure, including tax records, proof of race for all minorities, articles of incorporation, corporate by-laws, stock certificates, partnership agreements, resumes, etc.
3. Only complete applications will be reviewed; inquiries will be returned.
4. Applications are subject to on-site review by state compliance officers.
5. Upon application approval, the company receives an MBE certification notification via email.

Applications take an average of 19 days to process. A new "fast track" system reduces priority applications to five days.

For help with certification, including access to the "fast track" process, applicants are encouraged to visit a regional Minority Business Assistance Center operated by the Ohio Development Services Agency.

CERTIFICATION REQUIREMENTS

To be certified as an MBE:

- The business must be at least 51 percent owned and controlled by an individual(s) belonging to at least one of the following groups: Blacks, American Indians, Hispanics or Asians;
- The business must be a for-profit business entity;
- The business must have been in operation at least one year prior to applying for certification. This requirement does not apply to joint venture applicants;
- The minority individual(s) must possess requisite knowledge of the business and industry;
- The minority individual(s) must have day-to-day control over the business and must exercise final authority over all aspects of the daily operation of the business including operations, financials, business management, policy decisions and human resources;
- The business must have demonstrated capability and/or expertise within the identified classifications for a period of one year prior to certification;
- The minority individual(s) must have possession of all licenses, permits and authorities required by law to perform the scope of work within the classifications requested.

AFTER CERTIFICATION:

In addition to the requirements for MBE certification, any MBE-certified business bidding on a contract awarded by any state agency other than the Ohio Department of Administrative Services must meet any pre-qualification requirements.

Minority Business Assistance Centers

- The Ohio Development Services Agency (DSA) partners with community-based non-profit organizations to host regional Minority Business Assistance Centers (MBAC). The centers serve the needs of Ohio's small, minority and disadvantaged businesses. The centers provide important services including technical assistance, professional consulting, access to capital and assistance obtaining contract opportunities. A primary objective of the program is to identify emerging businesses and cultivate their growth and sustainability. The realization of this objective will strengthen the minority business community, support job creation and further economic growth in Ohio.
- Professional MBAC staff work with owners of existing businesses, start-ups, certified Minority Business Enterprises (MBEs), certified Encouraging Diversity Growth and Equity (EDGE) and socially and economically disadvantaged businesses. MBEs are defined as businesses that are at least 51 percent or more owned and controlled by one of the following groups: African American, Hispanic, Native American or Asian American. EDGE certified businesses are defined as enterprises that are owned by economically and socially disadvantaged entrepreneurs.

- The MBACs provide MBE and EDGE entrepreneurs with management, technical, financial and contract procurement assistance in addition to loan and bond packaging services. These services are available at no cost to businesses located throughout Ohio.

The Ohio Procurement Technical Assistance Centers (PTAC) can assist your company in getting its share of federal, state and local government contracts.

Did you know:

- The federal government purchases more than \$400 billion worth of goods and services every year.
- State of Ohio government agencies purchase more than \$2 billion worth of goods and services every year.

The Procurement Technical Assistance Centers (PTAC) provide the services to give businesses the tools and training required to successfully compete in the government marketplace. PTAC can offer help in every aspect of the government contracting process, from just getting started to post-award assistance. We can help entrepreneurs who are new to government contracting as well as experienced contractors.

Your success is our success!
