

U.S. Bank is pleased to announce four great enhancements coming to Fleet Commander® *Online* on **June 1, 2014**:

Organizational Summary Report Enhancement

- A new “Unassigned” row will summarize the total dollar value of all unassigned transactions, providing better visibility into activities and their associated costs

Time Zone Added on Card Viewing Screen

- When viewing a card, the time will reflect the user’s time zone, making it easier to understand the authorized time frame for the card. Note: the Central Time zone will continue to be required when creating or editing card information.

Purchase Alerts for Declines

- A Purchase Parameter will no longer be required when setting a Purchase Alert for a Decline, eliminating the need for multiple notifications

Fixed or Variable Rate Selection

- During the payment process, users will now be asked whether they are setting up a fixed or a variable payment amount, significantly improving efficiency

If you have any questions, please contact your U.S. Bank Relationship Manager or U.S. Bank Fleet Customer Service at 800-987-6591.

Thank you.
