

We continually enhance [U.S. Bank Fleet Commander™ Online](#) to best support your needs. There will be numerous changes implemented on **December 5, 2011**.

#### New Look

The most noticeable change will be to the look of Fleet Commander™ Online. The functionality and processes you use to complete your tasks will remain the same, but the appearance will now reflect both U.S. Bank and Voyager brands.

Get a sneak peek now of the [login](#) and [welcome](#) pages.

[Web-based Training \(WBT\)](#) will be updated on an ongoing basis to match the new look. The functionality will not be changing, so you can continue to use the lessons and user guides during this time.

#### Login Process Change

After December 5th, your passwords will be case sensitive to enhance your login security. For example, if you have set a password to be AcmeStation47, you will need to capitalize the A and S to login successfully.

#### New Report

We have added a new report, International Fuel Tax Association (IFTA) Report. This report can be saved and scheduled. Visit the *Reporting* homepage and *IFTA Filing Report* will be included in the *Transaction Report* list.

#### Merchant Locator Updates

For more accurate results, the *Voyager Acceptance Locator* will include an option to *Display all merchants in the search radius*. When selected you will see all Merchants for the geographical area you have indicated. If not selected, you will only see merchants that apply to your additional search parameters under *Fuel Products and Services & Maintenance*. This allows you to narrow your search results to the specific criteria you need, e.g., Diesel or Brakes.

If you have any questions regarding these updates, please contact your U.S. Bank representative.

Thank you,

U.S. Bank
