28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Scope:

The scope of this project consists of renovating and reprogramming of existing high-bay physical education wing and existing classrooms into two (2) floors of health science spaces including building additions for new entrances and student lounge areas.

Size:

25,000 square feet renovation
6,000 square feet addition (plus site work)

Cost:

\$3.5 million

Scheduling:

Project bid documents intended construction to progress through two (2) phases. After working with the facility representatives and project contractors, the first phase was expanded into three (3) rough work areas and seven (7) finish areas to allow for an orderly progression through the work and present the least interruption to the occupied areas of the facility.

Because the project is managed using the Ohio Administrative Knowledge System ("OAKS"), the fully cost and resource loaded project schedule is used to corroborate contractor payment requests through activity codes corresponding to schedule of value line items. This procedure significantly streamlines payment procedures in that the monthly updated project schedule is simply sorted and presented in the format corresponding to the schedule of values with amounts to-date updated based on the updated schedule.

All submittals, submittal reviews, procurement activities are included on this schedule to ensure materials are available as required by the work as well as for tracking beyond simple submittal spreadsheets.

The scope included cost and resource loaded schedule and monthly updates. This project is also administered through the OAKS system. To complete scheduling, constructability review comments were generated in addition to review comments presented by firms retained specifically for reviews. Simply through scheduling efforts, many circulation and phasing issues were addressed prior to the start of work.

29. FIRMS FROM SECTION C INVOLVED WITH THIS PROJECT

a.	(1) FIRM NAME Construction Support Solutions	(2) FIRM LOCATION (City and State) Avon Lake, Ohio	(3) ROLE Scheduling
b.	(1) FIRM NAME	(2) FIRM LOCATION (City and State)	(3) ROLE

27. PROJECT OWNER'S INFORMATION

a. PROJECT OWNER Levin Porter Associates, Inc.	b. POINT OF CONTACT NAME Patrick Hillier	c. POINT OF CONTACT TELEPHONE NUMBER 937.224.1931
--	--	---

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Scope:
The scope of this project consists of the complete renovation of both the 5th and 9th floors of the OSU Biological Sciences Building including all labs, lab equipment including cold rooms, building services supporting the labs, fixtures, furnishing and other equipment, while the remainder of the building remained in use.

Size:
25,000 square feet renovation

Cost:
\$2.8 million

Scheduling:

This project includes firm completion milestones required to support other work undertaken by OSU. Although no resource loading was required by the University, Construction Support Solutions evaluated cost information with the contractors to ensure a complete understanding of the manpower required to achieve the completion dates. This information has proved critically important to the management team assigned to the project in that manpower levels are monitored regularly against the levels planned during development of the baseline schedule.

Complicating the scheduling efforts are numerous changes due to "unforeseen conditions" and work necessary below each of the renovated floors to complete installation of plumbing and electrical services serving the renovated spaces. Although the work on the lower floors was planned, the condition of the existing services were not as shown nor the extent of abatement requirements necessary to access these services. Schedule updates include adjustment to activity relationships and close scrutiny for "stacking" as well as manpower requirements to stay on track to achieve the completion milestones.

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Scope:

This project is a new Medical / Dental Building within the facility for inmates.

Size:

6,500 square feet new construction

Cost:

\$1.3 million

Scheduling:

Construction Support Solutions was retained during design of this project at the request of the State of Ohio. Services include all scheduling and coordination specifications and scheduling.

In addition to the specifications and schedule, Construction Support Solutions provided additional constructability review comments, contractor input forms for later schedule coordination, scheduling of submittals and shop drawings, as well as a submittal log completed in advance of contracts to aid Architect/Contractor coordination.

29. FIRMS FROM SECTION C INVOLVED WITH THIS PROJECT

a. PROJECT OWNER Lorain County Community College	b. POINT OF CONTACT NAME Robert Flyer	c. POINT OF CONTACT TELEPHONE NUMBER 440.366.4019
--	---	---

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Scope:
 The scope of this project is to build three (3) new facilities and renovate three (3).

- New EIC 2 Sensor Technology Building
- New Lab Sciences Building
- New North Ridgeville Outreach Building
- Business Building Renovation
- Health Sciences Building Renovation
- Physical Sciences Building Renovation

Size:
 267,300 square feet total of new construction and renovation

Cost:
 \$60.3 million

Scheduling:

Construction Support Solutions was retained to provide research into the cost of emerging technology facilities such as nano-technology, and provide budgeting information for a large capital improvement including new technology and science buildings, an off-campus outreach building, and renovations to existing lab buildings, as well as scheduling services as it relates to cash flow.

Construction Support Solutions services consider many factors such as available labor in the area, material lead times and possible pre-purchasing, existing facility operating schedules, ingress/egress needs, bid timing to maximize competition and lower pricing, phased construction to take advantage of seasonal weather conditions, and so on. All such factors can be carefully considered when scheduling is implemented early in the process. Scheduling during bidding and construction is then planned to accomplish the over plans developed earlier.

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Scope:

Re-facing existing buildings including all components of the building exterior envelope.

Size:

65,632 square feet.

Cost:

\$2.7 million

Scheduling:

Scheduling is required through as a consultant to the Prime Contractor. The scope of this project is to replace the exterior building envelope including metal wall panels, curtain walls and glazing and masonry with an entirely new masonry and curtain wall walls including roofing and masonry restoration covering the perimeter of one of the facilities maintenance and storage building. The project requires cost loaded scheduling and specifically requires Oracle/Primavera System P6v7. Timing is critical to the Sewer District in that all work must be completed during summer dry periods when activity at the facility is not complicated by overburdened, dated combined sewer systems in the densest areas of Greater Cleveland.

Scheduling includes all labor and material resources including those of all sub-contractors, planning for the temporary relocation of office personnel and WBS coding for payment directly in the schedule, broken down by each elevation of the building.

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Scope:

Add underground "bunker" for Command Decision Room with administration spaces and technology rooms.

Size:

6,250 square feet addition including minor renovations

Cost:

\$1.7 million

Scheduling:

Scheduling is required through as a consultant to the Prime Contractor. The scope of this project is to add and underground "bunker" to the building for a Command Decision Room similar to a tiered auditorium with administration spaces, and technology rooms, with light renovation in the existing facility.

Scheduling includes all labor and material resources including those of all sub-contractors. This project was late commencing the bid period and required a significant amount of site work to be accomplished during winter months which extended normal durations to accommodate the reduced production due to weather (because the additionally is underground, work had to commence regardless of weather).

Many changes and suspensions of work were necessary through the schedule updates requiring continual focus on and analysis of potential schedule impacts. This analysis allowed planned adjustment by the Contractors without adversely affecting the completion.

27. PROJECT OWNER'S INFORMATION

a. PROJECT OWNER Fairview Park City School District	b. POINT OF CONTACT NAME Brion Deitsch, Superintendent	c. POINT OF CONTACT TELEPHONE NUMBER 440.331.5500
---	--	---

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Scope:

Construction Support Solutions managed all aspects of this School District's work including authoring scheduling specifications as well as the scheduling itself.

Size:

This District includes three (3) facilities of its own and facilities shared with the City. The District's facilities total over 334,000 square feet.

Cost:

To date, Construction Support Solutions has managed and scheduled over \$30 million in construction.

Scheduling:

The Fairview Park City School District work began in 2005 with the passage of the combined City/School District Gemini Project in which the City built a new Recreation Center and the School District built new building, renovated and added to existing buildings, and demolished three (3) buildings.

Scheduling included overall planning for both the City and School District work, significant swing space planning, coordination of programs and facility use, as well as construction activities. All scheduling efforts were fully cost and resource loaded to maximize the District's benefit of bond money deposits allowing additional work to be funded from interest earnings.

District work included various programs including H.B. 264, and LEED components although no certification was sought.

29. FIRMS FROM SECTION C INVOLVED WITH THIS PROJECT

27. PROJECT OWNER'S INFORMATION		
a. PROJECT OWNER Ohio School Facilities Commission	b. POINT OF CONTACT NAME Steve Berezansky, Chief of Projects	c. POINT OF CONTACT TELEPHONE NUMBER 614.466.6290

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Scope:

In partnership with Alpha Corporation, Construction Support solutions provides Partnering Services for executive level teams prior to construction, contractors at the start of construction, and for the entire project team for closeout toward the end of construction. These services focus the project teams on the timing and sequence of activities necessary to complete a project in a coordinated and efficient manner. These sessions highlight common failures and measures to preclude those failures while also resolving and current issues a project team may be experiencing.

Size:

Partnering for the OSFC is conducted throughout the State of Ohio where a School District is participating in OSFC capital improvement programs.

Cost:

To date, Construction Support Solutions has provided partnering services to school districts on projects totaling over \$554 million.

Scheduling:

Inevitably, scheduling becomes a main topic of discussion during project partnering. Whether it be at the very beginning of a project with the executive team, with the contractors at the start of construction, or toward the end of construction in preparation for closeout, specific activities are reviewed for sequence, responsibility and cost.

---	--	---

28. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT *(Include scope, size, and cost)*

Scope:

Multi-Purpose Addition with new catering kitchen, large group restrooms, a bookstore, and storage.

Size:

8,000 square feet.

Cost:

\$1 million.

Scheduling:

Construction Support Solutions provide complete project management for this project beginning with fund raising support through complete closeout of contracts.

All functions remained in operation throughout construction.

Focusing on lowest/best pricing, Construction Support Solutions planned and bid the work throughout the construction period ensuring continual progress without interruption to the programs and events conducted at this facility.

Scheduling was conducted on an on-going basis, on-site, to ensure the Center's daily activities and programs were unaffected.

H. ADDITIONAL INFORMATION

34a. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE CONTRACTING AUTHORITY. ATTACH ADDITIONAL SHEETS AS NEEDED.

Construction Support Solutions is very proud to offer Scheduling Services to the State Architect's Office.

Anna and Kevin Klee founded Construction Support Solutions after over 20 years of service in Construction Management to deliver services with the integrity clients deserve. Our public clients deserve the very best their consultant's can deliver. We are fully capable of delivering our services through any agreement necessary, whether it be through the Lead Contractor delivery model or through direct consulting agreement.

We feel that we can deliver an incomparable combination of professionalism, expertise, and hands-on experience.

We are fully trained and capable in the Ohio Administrative Knowledge System ("OAKS").

Currently providing estimating, scheduling as well as constructability review services to our clients, Construction Support Solutions can support any size project in any capacity desired. We typically utilize Microsoft Excel for estimating and constructability reviews to allow the data to be shared with relative ease.

Scheduling services are delivered utilizing either Primavera SureTrak 3.0c or Primavera P6, or other systems as may be requested.

H. ADDITIONAL INFORMATION

PROPOSER AFFIRMATION AND DISCLOSURE

The Lead Firm or Joint Venture (“Proposer”) acknowledges that by signing this Statement of Qualifications, that it affirms, understands, and will abide by the requirements of Executive Order 2010-09S issued by Ohio Governor Ted Strickland. If awarded a Contract, the Proposer affirms that both the Proposer and its Consultants shall perform no services requested under the Agreement outside of the United States. The Executive Order is available at the following Web site: <http://www.governor.ohio.gov/Default.aspx?tabid=1495>.

The Proposer shall provide the locations where services under the Contract will be performed in the spaces provided below or by attachment. Failure to provide this information as part of its Statement of Qualifications will cause the Proposer to be deemed non-responsive and no further consideration will be given to its Statement of Qualifications. If the Proposer will not be using Consultants, indicate “Not Applicable” in the appropriate spaces.

1. Principal business location of the Proposer:

334 Bounty Way
Address

Avon Lake, Ohio 44012
City, State, Zip

2. Location where services will be performed by Proposer:

334 Bounty Way
Address

Avon Lake, Ohio 44012
City, State, Zip

Locations where services will be performed by Consultants:

Address

City, State, Zip

3. Location where state data will be stored, accessed, tested, maintained, or backed-up, by Proposer:

334 Bounty Way
Address

Avon Lake, Ohio 44012
City, State, Zip

Locations where state data will be stored, accessed, tested, maintained, or backed-up by Consultants:

advertised EDGE ee plus all accepted d Business Enterprise(s). provide to the Contracting ice from the Contracting Contract and To Perform oposer if awarded the

Option B (also indicate percentage -- see text)

The Proposer does not meet the advertised EDGE Participation Goal percentage, but, if awarded the Contract for this Project, commits to provide _____ percent of the Contract award amount, calculated as a portion of the Basic Fee plus all accepted Additional Service Fees and Reimbursable Expenses, by using EDGE-certified Business Enterprise(s).

The Proposer acknowledges it understands the requirement for it to provide and agrees to provide to the Contracting Authority, if selected for consideration of the Contract, within 10 business days after notice from the Contracting Authority, a letter requesting a waiver of the EDGE participation goal percentage on the Proposer's letterhead with a detailed Demonstration of Good Faith form describing its efforts undertaken prior to submitting its Statement of Qualifications to meet the advertised EDGE Participation Goal percentage for the Contract for this Project, and full documentation to substantiate its efforts.

The Proposer commits to provide to the Contracting Authority at the location required within 10 business days after receiving notice from the Contracting Authority, its Technical Proposal, including a Certified Statement of Intent To Contract and To Perform form for each EDGE-certified Business Enterprise proposed for use by the Proposer if awarded the Contract for this Project.

Option C

The Proposer declares that it is an EDGE-certified Business Enterprise and that if awarded the Contract, the EDGE Participation percentage will be 100% of the award amount.
