WHAT IS THE COST-PER-COPY (CPC) PROGRAM ?

The DAS State Printing and Mail Services Cost-Per-Copy Program (CPC) was designed to bring the latest in print device technology to state of Ohio agencies and properly registered members of the Cooperative Purchasing Program. This managed program eliminates the hassles of print device procurement, ensures quality products supported by excellent print management and contractor service, and secures an attractive cost-per-copy price that remains fixed for three years. Cost per copy/print maximizes savings by combining the equipment, services and supplies (except paper and staples) into one low cost. Some of the program highlights include:

- **Pay only for impressions made monthly**
- **No monthly maintenance payments**
- **No monthly lease/rental payments**
- **Customer only supplies paper and staples**
- **Tracking usage and cost much easier**
- **Only one form to complete**
- **A4 machines to reduce your monthly payments on lower volume machines**
- **Available 4th and 5th year options**

The cost-per-copy price includes all costs associated with the administration of the service, including, but not limited to: delivery, installation; training; dedicated technician(s); all operating supplies needed for the machines including toner, developer, fuser oil, connectivity equipment and software; etc. (paper and staples are the only exceptions); delivery of supplies and removal of the equipment upon termination of the contract and/or authorized moves during the contract. The cost per-copy price shall also include all maintenance and repairs, labor, parts, test copies, travel time, mileage and any other expense required to maintain the equipment in proper working condition.

Administered by DAS/GSD State Printing and Mail Services, the CPC Program Manager will make every effort to ensure that the placement of print devices by volume classification is directly related to the estimated average monthly volume of copies produced at a given location.

NEEDS ASSESSMENT

Before selecting a print device, assess your needs and make some preliminary decisions regarding the machine you'll be getting.

- Volume: What is the monthly volume on your present machine or your estimated monthly volume if you are not replacing an existing machine?
- Accessories: What accessories do you need; such as a large capacity drawer, scan kit or fax?
- Single or Multi-Function: Do you also want your copier to scan/copy/fax?
- Networking: Will your machine be networked?
- Copy speed: The following page shows a recommended guide for machine speeds comparable with monthly volume ranges.
- Consolidation: Are you consolidating print assets? Consult with CPC Program Manager about Print Management Program.

CPC PROCUREMENT PROCESS
