

The Department of Administrative Services, General Services Division, operates a statewide mail service available to state agencies. Services include but are not limited to the following:

Presort Mail Services

Presorting mail is a process in which the mail is separated according to zip code and prepared for the United States Postal Service (USPS) for immediate distribution, thereby eliminating USPS' sorting process. The State Mail Service coordinates mail pick-up for state agencies in the central Ohio area which are eligible for USPS presort discounts. All state agencies in the central Ohio area are expected to utilize the presort services provided by the State Mail Service. There is an ongoing pursuit to recruit new customers to participate in the program. During the last year, the State Mail Service increased the participating agencies to 102 with the recruitment of 8 new agencies. In FY 09 by presorting 73.7 million letters, the presort program had a net savings of **\$5,068,823**.

Centralized Metering Program

The State Mail Service provides a full service metering program that includes processing of all classes of mail and parcels, certified, presort standard, and first class presort. By utilizing this program, agencies can take advantage of immediate savings by eliminating the cost of equipment, service contracts, meter leases, supplies and even square footage expenses where current mail operations are located. Agencies are billed quarterly for the amount of postage they have used only. There is no other fee. The expenses of the metering program are funded by the State Mail Service. All state agencies are encouraged to utilize the metering program offered by the State Mail Service. During the past year, the metering program has recruited two new customer agencies. We currently maintain accounts for 64 state agencies, boards and commissions. In FY 2009, the State Mail Service metered 777,205 pieces of mail and conservative agency savings were an estimated **\$627,200**.

Flat Sorting Program

The State Mail Service maintains a flat sorting program designed specifically for bound printed matter. Agencies with outgoing mail such as calendars, annual reports, informational books etc, can utilize this program. Savings are quite significant versus first class U.S. mail. The mail is sorted by the current contracted vendor DHL Global Mail and taken to a Sectional Center Facility or a Delivery Destination Unit of the U.S. Postal Service and entered into the mail stream. In FY 2009, this program processed 325,992 pieces for a net savings of **\$511,897**.

Interoffice Mail Delivery

Interoffice mail delivery is offered to agencies located in the central Ohio area and to most institutional facilities of the Departments of Rehabilitation and Correction, Youth Services, Mental Health, and Mental Retardation and Developmental Disabilities. Interoffice mail delivery is also provided to state agencies located at 615 West Superior Avenue in Cleveland. Interoffice mail delivery is provided at no cost to state agencies on current delivery routes. The State Mail Service processes approximately 1,950 pieces of interoffice mail per day (507,000 annually), averaging 3.4 ounces (\$1.39 if U.S. Postage were necessary). In FY 2009, savings for state agencies utilizing interoffice mail totaled an estimated **\$704,730**.

COMBINED SAVINGS FOR THE ABOVE PROGRAMS IN FY 2009 WERE

\$6,912,650
