Optum™ offers a wide range of programs and services designed to help organizations address workplace challenges by:

- Providing employees with current information and educational materials about work/life issues
- Heightening the awareness and visibility of organizational effectiveness programs
- Helping employees develop their work/life management skills
- Providing management with the opportunity to enhance employee relations by honing supervisory skills
- Conveying a supportive corporate culture to employees and their families

Training programs
We offer training programs on a variety of topics related to workplace and work/life issues. They’re an integral component of an organizational health program. These interactive, practical and informative programs are conducted by members of the Optum network of experienced training professionals. Workshops and seminars utilize a variety of adult learning strategies. They may involve individual and group exercises, case studies or facilitated discussions.*

Our Management Development programs help managers polish communication skills and understand organizational dynamics. Participants learn how to enhance employee relationships and knowledge, and improve morale and motivation in the workplace. Our Employee Development and Wellness and Work/Life programs are meant to be introductory in nature, with the goals of increasing understanding and introducing effective behaviors.

Each program is listed in this catalog with a brief synopsis of its content and important information relevant to the presentation. The topics have been organized to help you meet the needs of your employees and your organization:

- Professional development for managers and supervisors — Designed for managerial and supervisory personnel.
- Human resources/workplace concerns and work skills — Appropriate for all levels of professionals.
- Wellness and work/life seminars — Appropriate for most audiences.
- Sampler programs — 30-minute presentations designed to offer a brief “taste” of our training programs.
- Web-based programs — Web-based versions of a select number of our in-person/onsite trainings have been modified for a web-based training format. Training times may vary from the in-person training. The web-based training platform is to be provided by the client.
- Information fairs — Resource fairs that showcase articles and pamphlets around a given work/life theme.

* Due to legal constraints, our trainers cannot answer specific questions related to state or federal law, or interpret internal organizational policy.
Training policies and department contact information

- Scheduling: Thirty days prior notification is required when scheduling training. Department staff members arrange all scheduling.

- Contracted hours: Contracted training/consulting hours are deducted in one-hour increments for all actual on-site time. This doesn’t include travel or set-up time.

- Fee for service: If approved, organizations that want additional training hours — beyond those provided in their contracts — will be charged an additional fee.

- Travel time and expenses: No contracted hours are deducted for travel time. Travel expenses, if any, are billed additionally when preauthorized by the customer.

- Canceled training: When canceling scheduled training, five full business days’ notification is required. Shorter notice will result in a deduction of contracted training hours or an applied fee.

- Canceled travel: Any non-refundable travel expenses incurred as a result of cancelation will be billed to the customer, regardless of when the customer cancels. When the training is being scheduled, the customer will be offered the option of refundable or lower-cost, non-refundable reservations.

- Critical Incident Response Services (CIRS): By special arrangement, contracted training hours also may be used for CIRS. Consult your account manager for specifics.

- Language availability: Currently we provide our training programs in English, but for a small fee they can be translated into Spanish.

- For each 30-minute program, one training hour will be deducted from your contracted hours or one training hour will be billed to your organization, if training is fee-for-service.

- Information Fairs can be one or more hours in length, depending upon customer needs. For every hour, one hour will be deducted from your bank of training hours or, if fee-for-service, the hourly rate will apply.

Quality assurance

Optum is committed to offering training programs that are relevant to your organization and uncompromising in quality. Individual participants will evaluate all programs. This data will be collected, summarized and analyzed for internal modifications and enhancements. Please consult your account manager regarding particular concerns.
NOTE: Please allow a minimum of 30 days for your request to be processed.

1. Select programs that are appropriate for your organizational and employee needs and interests. If you need assistance or more information than is provided in this catalog, call your account manager.

2. Choose several dates and times that meet your scheduling requirements. Please have a room reserved for requested dates. The standard parameters for scheduling training programs are Monday through Friday from 8 a.m. to 6 p.m.

3. Please consider the following in planning for your training session(s):
   - Number of attendees expected in each session — between 10 and 50 is recommended
   - Number of sessions requested
   - Participants (managers, employees, other)
   - Location of the training
   - Contact person’s name, address, phone number and email address
   - Description of the room to be used (size, tables, etc.)
   - Special needs, if any

4. Be prepared to share any relevant workplace history, incidents or information — such as new policies or workplace changes — that will be helpful to the trainer.

You may submit your request by calling your Optum account management team.

A cooperative effort

In order to maximize the training benefit, in addition to the 30-day advance request, we ask you to:

- Have a training space available to accommodate the expected number of participants.
- Agree to print the participant booklets, evaluation form, and with some topics there may be an additional document for printing.
- Have a flip chart or white board available and an overhead projector or LCD projector and laptop computer.
- If scheduling back-to-back sessions, build in a 10- to 15-minute break between sessions to allow time for the trainer to address any changes that may be needed.

If any of this will create a problem or hardship, please inform your account manager or training coordinator.

Building a safe place to work 3 hours
Laid-off employees, disgruntled customers and others seeking revenge may resort to violence — threatening, injuring or killing co-workers, supervisors and bystanders. Any business in any industry is vulnerable. In this program, participants are given the actual tools needed to put together an action plan for workplace violence prevention. The roles of workplace assessment and response teams, as well as specific techniques for preventing the escalation of violence, are examined.

Program highlights:
- Understand the specific role of management and supervisory personnel in maintaining workplace safety
- Identify action steps relating to a report of actual or potential violence
- Recognize the resources that are available following an incident of workplace violence
- Understand the impact of violence on employees and the workplace

Client information and recommendations: This program is most effective when a representative from the human resources (HR) department attends and participates in the discussion. HR can address questions about your organization's specific policies and procedures.

Building successful teams for managers 3 hours
Managers will learn to identify the characteristics of effective teamwork, influence the work group function and recognize the signs of a team in trouble. This program will help participants form and maintain effective teams, and improve productivity and morale.

Program highlights:
- Define teamwork
- Identify the qualities and characteristics of an effective team
- Determine your individual work style
- Learn how to modify your work style for team effectiveness

Building trust in the workplace 3 hours
Also available in a web-based format 1 hour
Participants in this session take a look at company and employee behaviors that undermine workplace trust. By exploring the characteristics of the healthy workplace, participants receive a clear picture of what changes may improve their work environment.

Program highlights:
- Identify the characteristics of a healthy workplace
- Examine organizational behaviors that undermine trust
- Determine strategies for building trust

Client information and recommendations: This program should be presented with the full support of senior management and as part of a larger workplace trust-building effort. An HR representative should be present during the training to address questions and concerns from the participants.

The fairs showcase a selection of topics such as “All about eldercare,” “Developing a healthy lifestyle,” and “Bursting the stress bubble.” An Optum representative is available to talk with employees about the information provided.

These events work well when it’s difficult for employees to take an hour out of their day to attend a regular training session. They are best set up in a well-trafficked area such as a lobby or cafeteria.
