

Bike to Work

There's safety in numbers... RideSolutions can send you a free, custom matchlist of co-workers interested in biking to work, just like you, call or go online today.

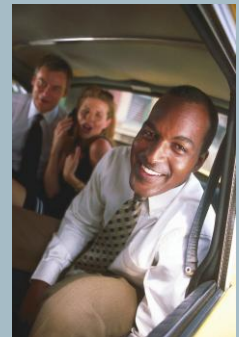

"Safety and visibility in numbers can be achieved if our state workers team up and bike to our work locations. Consider joining our team for increased health and wellness and the opportunity to build new relationships in 2012; together we can accomplish great things!"

– K. Mahl, 614.644.5442 kmahl@dps.state.oh.us

When biking isn't practical...carpool or vanpool

You'll still be saving money as well as helping to reduce congestion and air pollution. You don't need a car to carpool, be a passenger and help pay for gas. If you have reliable transportation you can register with RideSolutions and offer a ride to a co-worker...you might just save their job.

Vanpooling is an option for commuters with a long drive. With enough interest we can form a vanpool from your neighborhood. There's no long-term lease, just a renewable 30-day commitment. Let someone else drive while you save wear and tear on your personal vehicle; contact RideSolutions today.

You won't be stranded when you bike, carpool, vanpool, ride the bus, or walk to work if you register for the RideSolutions free Guaranteed Ride Home (GRH) service!

GRH reimburses 90% of your taxi fare home if you have an emergency at work and need to leave unexpectedly.
