

Are you experiencing technical difficulties using Learning on Demand?

If so, your software may be to blame. Oracle Java Runtime Environment (JRE) is required for Skillssoft content to function normally within your browser.

If you are working from a computer within your Microsoft Office environment, it may be helpful to have your local IT helpdesk personnel install the software for you.

Please use the following link to upgrade your JAVA software:
http://java.com/en/download/ie_manual.jsp?locale=en
