

Pop-up Blocker may cause display difficulties when using the Learning on Demand Skillsoft portal.

Have you had problem recently opening courses or books in Learning on Demand? The cause may be a pop-up blocker.

Many advertisers on the Internet use pop-up windows to display their message in a way that is hard to miss. Internet Explorer Pop-up Blocker lets you prevent most pop-up windows from appearing over Web pages when you are browsing the Internet.

Note

By default, Pop-up Blocker is enabled. When logging in to Learning on Demand make sure that Learn It Ohio is a trusted site and that the pop-up blocker is off. Books24\7 will not open if the terms and conditions have been not acknowledged. This page will only appear if the pop up blocker is turned off. Once it is signed books 24\7 will open. Pop-up Blocker limits or blocks pop-ups on sites that you visit. You can choose the level of blocking you prefer, turn on or off notifications when pop-ups are blocked, or create a list of sites that you don't want to block pop-ups on. Pop-up Blocker settings only apply to Microsoft Internet Explorer for the desktop

Turn Pop-up Blocker on or off

Open Internet Explorer.

Click the Tools Button, and then click Internet options

On the Privacy tab, under Pop-up Blocker, select or clear the Turn on Pop-up Blocker check box, and then click OK

Block all pop-ups

Even if you turn pop-up blocker on, Internet Explorer won't block pop-ups from sites that are in the Local intranet or Trusted sites security zones. If you want to block all pop-ups—including pop-ups on Local intranet or trusted sites—you'll have to change the blocking level. Here's how:

Open Internet Explorer.

Click the Tools button, and then click Internet options

On the Privacy tab, under Pop-up Blocker, click Settings

In the Pop-up Blocker settings dialog box, set the blocking level to High: Block all pop-ups (Ctrl + Alt to override)

Click Close, and then click OK

Turn off notifications when pop-ups are blocked. You can turn off notifications if you don't want Internet Explorer to let you know every time it block a pop-up. Here's how:

Open Internet Explorer.

Click the Tools button, and then click Internet options

On the Privacy tab, under Pop-up Blocker, click Settings

In the Pop-up Blocker settings dialog box, clear the Show Notification bar when a pop-up is blocked check box.

Click Close, and then click OK

Change Pop-up Blocker settings

You choose to have pop-ups will appear only on the sites you want them to. Here's how:

Open Internet Explorer.

Click the Tools button and then click Internet options

Make any changes you would like, click close, and then click OK
