Coaching and Development for Results				
Coaching Techniques that Drive Change	mgmt_38_a02_bs_enus	Coaching by definition is action-centered. Techniques covered in this course will give the learner the tools needed to lead from behind as a coach. Leading from behind is providing guidance through skillful observation and communication techniques that help guide the coachee's discoveries, self-awareness, epiphanies, and 'aha' moments. Keeping the momentum of progress, staying the course, and creating detours characterize the coach's work in this phase. These are accomplished through coaching tactics that include questioning, listening, observing, and challenging.	26	SkillSoft Course
Coaching and Mentoring are the Key to Leadership Development	43758	This video helps to explain the difference between coaching and mentoring, and he offers tips for how to develop all levels of employees to their fullest potential.	3	Video

Three Communication Building Blocks	94367	Leadership works through the currencies of communication and relationships. To build your communication currency, develop a clear message so your audience knows where you want them to go, target the message to the audience, and deliver it with veritas.	2	Video
Managing Business Priorities and Complexity				
Setting and Managing Priorities within the Organization: Deciphering Priorities	lead_11_a02_bs_enus	As a manager, you need to be able to determine the difference between what has to be done and what has to be done first. By establishing clear priorities, you provide your team with the focus it needs to take the most effective action and achieve its goals more quickly. If the department's priorities aren't deciphered and defined, the team may lose sight of what's most important and fall behind on objectives and performance. This course helps you set priorities for your departmental team. It begins by explaining the importance of managing priorities appropriately and the dangers of failing to do so.	60	SkillSoft Course
Leader's Role in Managing Complexity	112291	A leader's role in managing complexity is to identify the business priorities and find the people to work on them.	2	Video
