

## Changing the Microsoft Internet Explorer (IE) Browser Document Mode

The EDF System is designed to use the latest version of Microsoft Internet Explorer (IE 9.0). If you received a pop-up message to change your document mode, then please do the following steps to correct it.

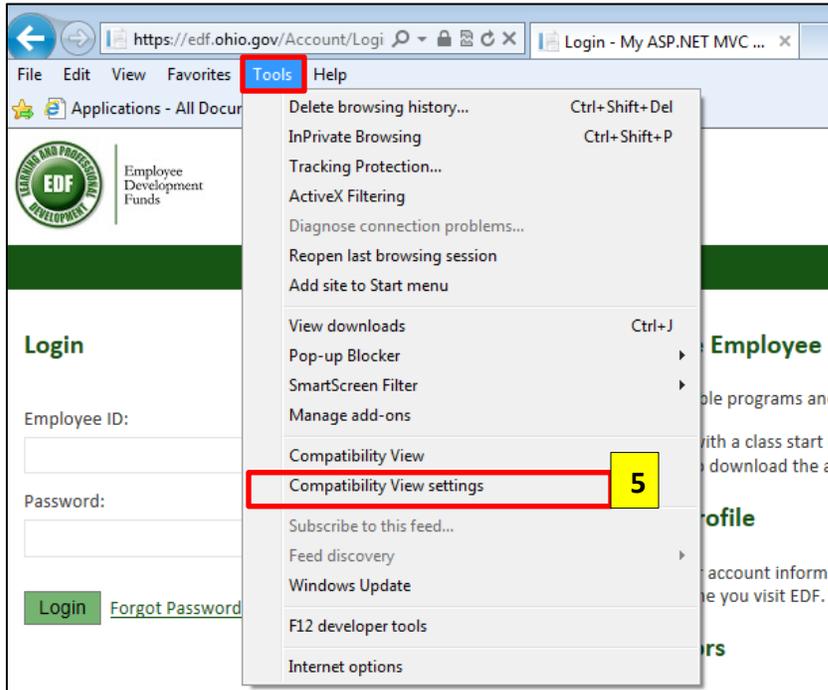

1. Click the OK Button to make the message disappear.
2. At the top of your browser click the right button on your mouse and it will display the browser popup menu.
3. Click the Menu Bar
4. And the menu bar will appear in your browser window

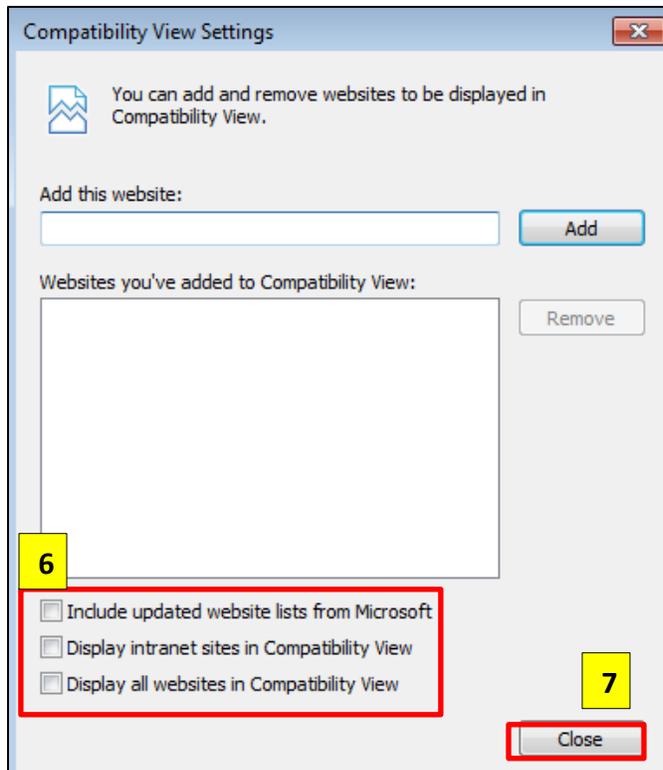

See next page...

5. Click the Tools Button for the Tools Menu to appear and select Compatibility View Settings

6. Inside the Compatibility View Settings be sure all three items are not checked

7. Click the Close Button and this will correct the Document Mode Settings for IE 9.0
