

Power User of the Month- Hemen Srivastava

Hemen Srivastava is a business process analyst in the Office of Information Technology at the Ohio Department of Administrative Services. Hemen began working in information technology (IT) in 2003. To enhance her knowledge of the field, she enrolled in IT courses outside of state government. Later she learned about Learn It Ohio where you can study at your own pace. “I was intrigued by the courses offered. The best part was that I didn’t have to pay a dime for these courses,” Hemen said.

“Skillsoft has proven to be a blessing. It enhanced my job skills and prepared me for certification exams. The program provided me with opportunities to explore and develop my full potential and vastly expand my knowledge in technical and business skills. I would highly recommend the Skillsoft study program,” Hemen said.

Hemen’s words of wisdom: “Due to the increasingly frantic pace of change, particularly in the interactive world, continuing education is now part of everyone’s job description.”
