

What is PayWorks?

KeyBank's PayWorks payroll debit card is a safe way to receive your pay without the inconvenience of cashing a payroll check. This easy-to-use card replaces your paycheck. You can get your pay in cash at any ATM or to make a cash advance at a financial institution. You can also use the card to shop at over 1.2 million locations. In addition, many merchants offer cash back when you make a purchase.

**No running around to find a check-cashing center
No standing in line**

It's safer than carrying cash – There's no need to carry large sums of money because your entire pay is available through your debit card. Your money is FDIC insured and you select a Personal Identification Number (PIN).

It's easy to track – you'll receive a monthly statement that details all payroll deposits, purchases and cash withdraws.

You're protected if your card is lost or stolen – just call the PayWorks toll-free customer service line, 24 hours a day, to report your card lost or stolen. With a lost or stolen paycheck, you have no protection.

Cash back option with purchases.

Complete the Enrollment Form and return it to your HR department. In approximately 12 business days, you will receive your card. After completing the activation process, your pay will be available to you at the opening of business on each payday. Simply use your PayWorks payroll card like a MasterCard debit card.
