

State of Ohio IT Standard	ITS-PLF-01 Attachment F	Standard Ultrabook Notebook
Effective Date: May 2, 2017 Effective Period: 12 months	<i>This standard configuration is subject to change within 12 months of its effective date. The most current version of this standard configuration (available on the DAS/OIT Web site) should be obtained when making IT planning or acquisition decisions.</i>	

Profile for Standard Ultrabook Notebook	
Category Description	This category refers to a lightweight notebook with no internal optical drives and used primarily by mobile workers.
Category Use Cases	<ul style="list-style-type: none"> Mobile workers need a lightweight notebook.
Planned Service Life	Notebooks in this category are expected to have a planned service life of four years, and agencies acquiring this category should be able to estimate the total cost of ownership over a four-year period. Systems are expected to be acquired with four-year parts and labor warranty from the manufacturer. Options are available from the manufacturer for upgrading the warranty to onsite, next business day.
Manageability	Notebooks that conform to this category are able to be well managed and locked down to achieve the lowest total cost of ownership. These notebooks are capable of having a factory-installed software image. They can be centrally managed and remotely supported and diagnosed by agencies with appropriate management tools. These notebooks have Intel vPro features and Intel Active Management Technology for agencies capable of utilizing them.
