

Agile Networks Update

- Agile has Nodes at all MARCS Locations
 - Both Ethernet for the 7.x system, as well as Pseudo T1s for the 3.x are traversing the network
- Network Upgrades
 - In 2015 we invested several Million Dollars in Network Infrastructure benefitting MARCS and MARCS customers
 - Additional Routes for traffic
 - Additional Power backup capacities

Agile Networks Internal Operations

Agile Continues to Grow

- Continually adding additional towers to the network to support our customers.
- Continually adding staff and third party relationships to support the network and our customers

Completion of our Network Operations Center

- Based in Canton, Ohio
- Proactive monitoring of the network
- Ticketing and outage processes
- Staffed 24/7/365
- Engage directly with Vendor engineers
- Keeps network design and documentation updated
- NOC to NOC communications with major carriers
