TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

This is a Service Attachment to the Master Service Agreement dated September 29, 2011, "Agreement", between the Department of Administrative Services (DAS) The Office of Information Technology ("OITDAS") on behalf of the State of Ohio, and Qwest Communications Corporation Qwest Communications Company, LLC D/B/A CenturyLink QCC, Attention: Corporate Counsel, 1801 California Street, Suite 900, Denver, Colorado 80202.

WHEREAS, OITDAS desires to include additional Vendor Service Provider services and the corresponding general provisions thereof; and

WHEREAS, the above named parties desire to execute this Service Attachment to said Agreement.

NOW THEREFORE, in accordance with the Agreement, and in consideration of the conditions and covenants contained herein, the Parties mutually agree as follows:

IN WITNESS WHEREOF, the Parties have executed this Agreement which shall be effective on the date signed by the State, "Effective Date."

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

This Service Attachment provides the Subscribing Entity's with the ability to purchase Interaction Routing Services ("Services") which are offered by CenturyLink Communications Company, LLC D/B/A CenturyLink QCC, "CenturyLink".

The following additional information is contained in the Appendix which is located at the end of this document:

- Appendix 1: Additional Service Information
- Appendix 2: Service Component Details
- Appendix 3: Service Features
- Appendix 4: Customer Support Information

1. Description of Service

Interaction Routing (previously Qwest Q-Routing) is the natural evolution of the call center environment, from the premises space to the network-hosted environment. Interaction Routing is a network-based Automatic Call Distributor ("ACD") service that provides your enterprise with a virtual contact center operation without the complex integration of multiple premises-based platforms.

Interaction Routing uses the CenturyLink network to route calls utilizing direct network-to-agent skills- based routing, based on your business rules, without requiring premises-based equipment. Interaction Routing can be customized to adapt to the business needs of your enterprise to manage inbound, outbound, e-mail and Web-based transactions through Interaction Routing's universal queuing and reporting capabilities. Interaction Routing can route calls to any agent, anywhere; whether you are using Centrex, Private Branch Exchange analog, ISDN, plain old telephone service, cellular, voice over IP or PC desktop phones, working in the office or at home. With Interaction Routing's virtual contact center capabilities, agents can be centralized or widely dispersed and can be configured to support even the largest of agent populations.

The following additional information is located in Appendix 1:

- How the Service Works
- Call flow
- Service Availability and Reliability.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

2. Service Components and Features

This Section contains an overview of the Service Components and Features associated with the Interaction Routing service.

2.1 Service Components

The following text provides an overview of the components that make up the CenturyLink Interaction Routing Service. A more detailed description of the service components is located in Appendix 2.

- **ACD** is an automatic call distributor that routes inbound telephone calls to an agent or machine and has two inbound agent types:
 - **Quick Launch Agents** are inbound agents using standard hunt groups for call routing.
 - **Skills Based Agents** are inbound agents that are grouped by skill group.
- **CTI** is an interface between ACD and the Subscribing Entity(s) database.
- **Web** is a grouping of applications that integrates web services into a standard call routing environment.
- **Outbound** is an application that dials out and connects the outbound call with a pool of agents when it locates a live voice.
- **Supervisor Standalone** (“Supervisor”) is the management and reporting functionality of the total application.
- **Workforce** is an application that enables the Subscribing Entity(s) to forecast and schedule staffing requirements.
- The **Enhanced Desktop** is an upgrade from the basic Quick Launch desktop.

2.2 Service Features

A list of standard service features is located in Appendix 3.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

3. Fee Structure

The pricing structure in this Section is based on the RFQ requirement which stipulated that the pricing be based on a vendor hosted service. There will be no deliverables owned by the Subscribing Entity.

The Subscribing Entity(s) will pay to CenturyLink all charges described in the Service Attachment and SOW for Services ordered by the Subscribing Entity. Charges for Services that are ordered, or may be ordered, by the Subscribing Entity(s) pursuant to the TSR and/or SOW are set forth below. Any Service component, service or other charge not shown below will be fully documented in the SOW at CenturyLink's then current rates.

During the term of the Service Attachment, the Subscribing Entity(s) will not be eligible for any discounts or promotions other than those specifically set forth herein.

Pricing for vendor hosted Interaction Routing is documented in the table below for the following services:

- Interaction Routing Bundled Agent Packages
- Interaction Routing Agent Package Migrations
- Interaction Routing Web Applications
- Interaction Routing Outbound

In addition, the table provides cost information based on Month to Month ("MTM"), 12 Month, 24 Month, 36 Month, 48 Month, and 60 Month service commitment terms:

Product Description	Unit MRC Price						
		MTM	12	24	36	48	60
Interaction Routing Bundled Agent Packages							
Quick Launch Agent	\$30.00	\$73.00	\$73.00	\$73.00	\$73.00	\$55.00	\$55.00
Skills Based Agent	\$38.00	\$95.00	\$95.00	\$95.00	\$95.00	\$75.00	\$75.00
CTI Based Agent	\$43.00	\$120.00	\$120.00	\$120.00	\$120.00	\$85.00	\$85.00
Web Bundle Standalone Agent	\$59.00	\$145.00	\$145.00	\$145.00	\$145.00	\$100.00	\$100.00
Outbound Only Agent	\$65.00	\$150.00	\$150.00	\$150.00	\$150.00	\$105.00	\$105.00
Supervisor Standalone	\$45.00	\$115.00	\$115.00	\$115.00	\$115.00	\$80.00	\$80.00
Interaction Routing Agent Package Migrations

Interaction Routing Desktop Applications – Service Description and Pricing

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

Interaction Routing Components	Unit MRC for Agreement with One Year Term	Unit MRC for Agreement with Two Year Term	Unit MRC for Agreement with Three Year Term	Unit NRC
Desktop Applications				
Genesys Agent Desktop per Concurrent Agent	\$16.20	\$16.00	\$15.80	\$15.00
Hosted Desktop Subscription (Simplex)	\$510.00	\$500.00	\$495.00	\$385.00
Hosted Genesys Agent Desktop (Simplex) per Concurrent Agent	\$20.20	\$20.00	\$19.80	N/A
Hosted Desktop Subscription (Duplex)	\$950.00	\$930.00	\$920.00	\$650.00
Hosted Genesys Agent Desktop (Duplex) per Concurrent Agent	\$24.20	\$24.00	\$23.80	N/A
Enhanced Desktop (Quick Launch)	\$40.00	\$32.00	\$26.00	\$10.00
Additional Applications				
Call Recording per port	\$79.00	\$59.00	\$51.00	\$75.00
Call Recording Storage per port for each twelve month increment	\$10.00	\$10.00	\$10.00	N/A
CTI Standalone Add per agent	\$30.00	\$30.00	\$30.00	\$15.00
Application Support				
Application Support Hourly Rate	-	-	-	\$280.00/hr.

1 Call Recording allows inbound calls to Interaction Routing to be passed through a recording system to capture agent interactions with their customers. Recordings are stored for up to six months for retrieval.

2 Call Recording Storage provides storage of recorded calls beyond six months. Additional storage is provided in annual increments up to seven years.

3 CTI Standalone Add provides CTI capabilities to a PBX for ACD routing without an internal or premises CTI router. This feature is required if Customer needs to enter agent specific information into the Configuration Management Environment (CME) and requires a PBX data link to the Service platform.

4 Genesys Agent Desktop (“GAD”) supports agent and supervisory functionality. The GAD can be located on a Customer provided server at Customer’s location or hosted on a CenturyLink virtual server at a CenturyLink location. The desktop application can be modified to Customer’s specific requirements. The details and charges for such modifications will be provided in an SOW.

(a) If the GAD is located on a Customer provided server, a Genesys Agent Desktop MRC will apply for each Concurrent Agent.

(b) If the GAD is hosted on a CenturyLink virtual server, a Hosted Genesys Agent Desktop MRC for each Concurrent Agent and a Hosted Desktop Subscription MRC will apply. The Hosted Desktop Subscription provides simplex or duplex redundancy. Simplex allows the application to be installed on a single server configuration within a CenturyLink hosting location. Failover is limited to single server redundancy options. Duplex allows the application to be installed on multiple servers allowing failover of the application between servers in addition to the single server failover capabilities.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

4. Equipment Discounts

Equipment is included above in the cost of Agent or Supervisor seat; prices include TAPI modems and software. Other restrictions may apply.

5. Service Specific Terms and Conditions

This section contains the additional Terms and Conditions that are specific to the Interaction Routing services.

5.1 Professional Services

Each Interaction Routing implementation is a customized solution which is dependent upon the unique business needs of each Subscribing Entity. Prior to placing an order in the TSR system, CenturyLink Professional Services will work closely with Subscribing Entity to develop provide a Statement of Work ("SOW") that will fully detail the following items:

- Description of Work: CenturyLink Professional Services team will develop, implement, validate and deploy call-flow strategy
- Discovery Workshop/Requirements Document - information obtained from the various entities on their call center operational business needs.
- Strategy Development, Validation and Implementation
- CenturyLink Professional Services and Subscribing Entity(s) Responsibilities and Deliverables
- Optional Services/Training
- Pricing Information

The Agreement and this Service Attachment will also apply to and govern the rendering of all Services or work product produced in anticipation of and prior to the Agreement.

5.2 Ordering Service

- "Order Form" shall mean and refer to the authorized forms for purchase by the Subscribing Entity(s) under the TSR system.
- All Services are subject to facilities and capacity availability and CenturyLink reserves the right to reject any Order Form in its reasonable discretion.
- CenturyLink will be obligated to provide the Services only after such Order Form is accepted by CenturyLink. CenturyLink will document the Subscribing Entity(s) orders and changes in CenturyLink's records. The Subscribing Entity(s) specifically agrees that all Order Forms relating to the Service submitted to CenturyLink by the Subscribing Entity(s) during the Term of the Agreement will be governed by the rates, terms and conditions set forth in the Agreement and this Service Attachment.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

5.3 Ownership; Grant of License

5.3.1 Vendor Hosted Services

As a vendor hosted service, all related computer programs, services and/or systems are owned by CenturyLink (“CenturyLink Systems”) and will reside solely on the CenturyLink provided network. Because the business requirements may vary by Subscribing Entity, each implementation may require custom system and software development work in order to deliver the hosted services. Any required work will be fully documented in the SOW prior to the issuance of a TSR order by the Subscribing Entity and will not result in a project deliverable owned by the Subscribing Entity, but will be solely owned by CenturyLink.

To the extent that any materials, creative content, tools, inventions, specifications, methodologies, discoveries, works of authorship, methods of operation, systems, processes and/or designs, whether or not reduced to practice and whether or not patentable, or any other software, systems or hardware owned by it or a third party (“Subscribing Entity Content”) are: (1) required by Subscribing Entity to be integrated into the CenturyLink Systems, (2) are required by a Subscribing Entity to reside or run on the CenturyLink provided network, or (3) are otherwise necessary for the provision of the services provided by CenturyLink, then CenturyLink will fully document the associated costs to the Subscribing Entity in the SOW.

**5.3.2 CenturyLink
Content**

Any:

- (i) materials, creative content, tools, inventions, specifications, methodologies, discoveries, works of authorship, methods of operation, systems, processes and/or designs, whether or not reduced to practice and whether or not patentable, developed by CenturyLink in the performance of the Services (including, without limitation, formatting code, source code and object code of any software and the documentation related thereto, if any) and all modifications, enhancements or derivative works thereof (collectively, “Newly-Developed Materials”); and
- (ii) all pre-existing materials, creative content, tools, inventions, specifications, methodologies, processes and/or designs, whether or not reduced to practice and whether or not patentable, provided or used by CenturyLink in the performance of the Services (including, without limitation, all formatting code, source code and object code of any software owned or developed by CenturyLink prior to the effective date of this Service Attachment) and all modifications, enhancements or derivative works thereof (collectively, “Pre-Existing CenturyLink Materials”) will be the sole and exclusive property of CenturyLink.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

The Newly-Developed Materials and Pre-Existing CenturyLink Materials will be collectively referred to in this Service Attachment as the “CenturyLink Content”. All rights in and related to the CenturyLink Content, including, without limitation, copyrights, trademarks, trade secrets, patents (including, without limitation, the right to obtain and to own all worldwide intellectual property rights in and to the subject matter embodied by or contained in the work product), and all other intellectual property rights or proprietary rights in and related to such CenturyLink Content, are hereby exclusively reserved by CenturyLink. It is expressly understood that, other than expressly provided in this Service Attachment, no right or title to or ownership of the CenturyLink Content is transferred or granted to the Subscribing Entity(s) under the Agreement.

5.3.3 Content Licenses

Subject to the terms and conditions of the Agreement and this Service Attachment, including, without limitation, upon payment in full by the Subscribing Entity(s) of all Service charges, CenturyLink hereby grants to the Subscribing Entity(s) during the term of this Service Attachment a worldwide, non-exclusive, non-transferable license to use the object code form of the CenturyLink Content only as it is embedded, linked, bundled and/or otherwise made an essential and necessary part of the work product by CenturyLink, or is otherwise required to be used in connection with, the work product (“CenturyLink Content License”). The Subscribing Entity(s) will not have the right to license, sublicense or otherwise transfer to others the right to use the work product or the CenturyLink Content. Any right not expressly granted by the CenturyLink Content License hereunder is hereby expressly reserved by CenturyLink.

5.3.4 Intellectual Property Indemnification by CenturyLink

As provided in this subsection, CenturyLink will indemnify, defend and hold OIT and the Subscribing Entity(s) harmless against any third party claim, allegation or suit against OIT and the Subscribing Entity(s) alleging that any Service(s) furnished under this Service Attachment 3 (“Covered Service(s)”) infringes any patent or copyright enforceable in the United States, or misappropriates any trade secret (the “Allegation”).

CenturyLink’s entire obligation to indemnify, defend and hold OIT and the Subscribing Entity(s) harmless shall be to: (i) defend OIT and the Subscribing Entity(s) against the Allegation; and (ii) pay all damages and costs that by final judgment are assessed against OIT and/or the Subscribing Entity(s) due to the Allegation.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

Subject to Ohio Revised Code Section 109.02, at CenturyLink's option and expense, CenturyLink may settle the Allegation. After notification of such claim by the Subscribing Entity(s), CenturyLink may: (i) procure for the Subscribing Entity(s) the right to continue using the Covered Service; (ii) replace or modify the Covered Service to provide the Subscribing Entity(s) with a non-infringing service of like quality and features; or (iii) if (i) or (ii) are not reasonably achievable, terminate provision of the affected Covered Service.

CenturyLink's obligations are expressly conditioned upon the following: (i) the Subscribing Entity(s) will promptly notify CenturyLink in writing of the Allegation; (ii) CenturyLink will have sole control of the defense or settlement subject to Ohio Revised Code Section 109.02; and (iii) the Subscribing Entity(s) will cooperate with CenturyLink in a reasonable way to facilitate the settlement or defense.

CenturyLink shall have no obligation under this paragraph for any Allegation that arises from: (i) modifications to the Covered Service(s) made by the Subscribing Entity(s) or at the Subscribing Entity(s) request; (ii) use of the Covered Service(s) except in conformance to all instructions and documentation; (iii) combinations of the Covered Service(s) with other products or services provided by the Subscribing Entity(s), third parties or CenturyLink; or (iv) transmission of non-CenturyLink supplied content, data, or other information.

THIS SUBSECTION SETS FORTH THE SOLE AND EXCLUSIVE REMEDY OF THE SUBSCRIBING ENTITY(S), AND THE ENTIRE OBLIGATION AND LIABILITY OF CENTURYLINK, AS TO ANY CLAIMS OF INFRINGEMENT OR MISAPPROPRIATION OF THIRD PARTY PROPRIETARY RIGHTS IN CONNECTION WITH ANY SERVICES PROVIDED HEREUNDER.

5.3.5 Third Party Materials

The Services may be in support of and/or the work product may contain certain third-party hardware or software components ("Third Party Materials"). All right, title and interest in the Third Party Materials, including, without limitation, copyrights, trademarks, trade secrets, patents, and other intellectual property or proprietary rights, are exclusively reserved by CenturyLink, CenturyLink's licensors and manufacturers and/or the licensor's suppliers and manufacturers. No right, title or ownership of or related to the Third Party Materials is or will be transferred to the Subscribing Entity(s) under this Service Attachment except to the extent a manufacturer or licensor permits the pass-through and assignment of license rights. In such cases, CenturyLink will pass-through and assign to the Subscribing Entity(s) all applicable license rights permitted by the manufacturer or licensor of the applicable Third Party Materials.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

5.3.6 Restrictions on Use

The Subscribing Entity(s) is/are expressly prohibited from, and will use all reasonable security precautions to prevent, by its own employees, agents and representatives and/or any third party from: (i) modifying, porting, translating, localizing, or creating derivative works of the CenturyLink Content or Third Party Materials; (ii) decompiling, disassembling, reverse engineering or attempting to reconstruct, identify or discover any source code, underlying ideas, underlying user interface techniques or algorithms of the CenturyLink Content or Third Party Materials by any means whatever, or disclose any of the foregoing; (iii) selling, leasing, licensing, sublicensing, copying, marketing or distributing the CenturyLink Content or Third Party Materials; or (iv) knowingly taking any action that would cause any CenturyLink Content or Third Party Materials to be placed in the public domain.

The CenturyLink Content and Third Party Materials are protected by the intellectual property laws of the United States and other countries, and embody valuable confidential and trade secret information of CenturyLink, CenturyLink's licensor(s) and manufacturers and/or its suppliers. The Subscribing Entity(s) will hold the CenturyLink Content and Third Party Materials in confidence and agrees not to use, copy, or disclose, nor permit any of its personnel to use, copy or disclose the same for any purpose that is not specifically authorized under this Service Attachment. The Subscribing Entity(s) agrees that the licensors or manufacturers of Third Party Materials and their suppliers are intended third party beneficiaries of the provisions hereof. This provision will survive termination of this Service Attachment and/or the Agreement.

In order to ensure compliance by the Subscribing Entity(s), CenturyLink will include the language from this Section in the SOW.

5.3.7 Residual Rights in CenturyLink Know-How

Subject to CenturyLink's confidentiality obligations set forth in the Agreement, nothing herein will be deemed to limit CenturyLink's right to use the ideas, concepts, processes, techniques, expertise and know-how retained in the unaided memory of CenturyLink as a result of its performance of the Services hereunder.

5.4 Voice Services

The Subscribing Entity(s) must purchase, under separate terms and conditions, the voice service used in connection with the Services.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

5.5 Export Administration

To the extent the Subscribing Entity(s) may export any information, the Subscribing Entity(s) agrees to comply fully with all relevant export laws and regulations of the United States (“Export Laws”) to assure that no information, design, specification, instruction, software, data, or other material furnished by CenturyLink nor any direct product thereof, is: (a) exported, directly or indirectly, in violation of Export Laws; or (b) intended to be used for any purposes prohibited by the Export Laws.

5.6 Compliance with Laws

The Subscribing Entity(s) must comply with all applicable requirements of federal, state and local laws, ordinances, administrative rules and orders applicable to its use of the Service, including but not limited to the Telephone Consumer Protection Act and the Telemarketing and Consumer Fraud and Abuse Prevention Act.

5.7 Acceptable Use Policy

All use of the Services will comply with the CenturyLink Acceptable Use Policy (“AUP”), which is posted at <http://www.CenturyLink.com/legal/>. The AUP is incorporated by reference and made a part of this Service Attachment. CenturyLink may immediately suspend a Service for any violation of the AUP. CenturyLink may change the AUP at any time and such change will be effective upon posting to the website or other notice to OIT.

6. Taxes, Surcharges, and Governmental Fees

CenturyLink will not bill the Subscribing Entity(s) for taxes for which the Subscribing Entity(s) has/have provided a valid certificate of tax exemption. CenturyLink may be required to charge certain taxes, surcharges and governmental fees to the Subscribing Entity(s), for which the Subscribing Entity(s) may be liable. Until Service is provisioned, CenturyLink is unable to provide an itemized list of these taxes. Surcharges and fees as rates differ by state, county, city, district, product, component group code, product component, and application code. After Service is provisioned in accordance with this Service Attachment, applicable taxes, surcharges and fees will be listed on the Subscribing Entity(s) billing statements.

7. Cost Recovery Fee

Interaction RoutingThe Service Provider will pay cost recovery fees for this Service per Section 14 “Cost Recovery” in the Master Service Agreement (MSA.) Additionally the Service Provider will submit all reports detailed in Section 14 “Cost Recovery” in the Master Service Agreement (MSA.)

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

8. State Level Reporting Requirements

CenturyLink shall fulfill all reporting requirements as set forth in §8.4 of the Master Service Agreement.

9. Service Level Agreement Requirements

The Service is subject to the Interaction Routing Platform Service Level Agreement (“SLA”) posted on CenturyLink’s web site at www.CenturyLink.com/legal, which is effective as of the last signature date of this Service Attachment. The SLA provides the Subscribing Entity(s) sole and exclusive remedy for service interruptions or service deficiencies of any kind whatsoever for the Service. OIT and Subscribing Entity(s) represents and warrants, or will represent and warrant as the case may be, that as of the Effective Date of this Service Attachment, and prior to both executing the Order Form and receiving the Service, that they (a) have had the opportunity to access and has in fact read the SLA, and (b) understand the SLA and the amount of SLA credits available therein. CenturyLink reserves the right to amend the SLA effective upon posting to the web site or other notice to OIT.

10. Customer Support Information

CenturyLink’s Dedicated Service manager in Dublin, Ohio will assign a primary point of contact within the Major Account Service Team (“MAST”) to support the Subscribing Entity(s). The primary point of contact will serve as the interface to internal organizations within CenturyLink to support the timely resolution and response to inquiries, issues, and troubles posed by the Subscribing Entity(s). Additionally, after-hours support for the Subscribing Entity(s) will be supported by a defined team of MAST Service Specialists that will support all switched or dedicated toll-free numbers. The after-hours support team will answer the Board’s calls on a priority basis. MAST management is also available to assist the primary point of contact and the after-hours team with backup and escalation support.

Additional detail regarding Service Contacts, Escalation Process, Team Responsibilities, and Team Members is located in Appendix 4.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

Appendix 1 - Additional Service Information

This section provides an overview of the Interaction Routing Service which is provided by CenturyLink.

How it works

The Subscribing Entity(s) dial an 8XX number or local number to reach the company. The call is intercepted and pointed to the Interaction Routing telephony node, where it is queued for routing instructions. Agent state is managed within the control complex, which sends routing instructions to the telephony node. The telephony node then sends the call back to the central office with routing instructions to the agent telephone. When the agent answers the call, the original call is immediately connected to the agent using 2B channel transfer within the primary rate interface. All calls through the telephony node are tracked via the reporting system, providing real-time, historical, and cradle-to-grave details. Management control of the system is available to the company via the IP connection to the CenturyLink IP Network. Web and outbound calls can be blended with inbound voice calls, or handled through dedicated agent logins.

Call Flow

The inbound call, either local or 8XX, is routed to the Interaction Routing ACD system, where call treatment is provided per your business rules. In many cases, your existing IVR can be integrated into Interaction Routing, or you may take advantage of the Interaction Routing network IVR capability. In either case, the call is routed, based on your business rules, to the appropriate available agent. Interaction Routing has visibility to all agents in the virtual call center universe, so there is no geographical limitation in the selection of an agent. Once the agent is selected, Interaction Routing places another call to that specific agent. When the agent answers, the ACD system connects the caller to the agent and steps out of the call flow. For the duration of the call, INTERACTION Routing has visibility to all agent activity and call disposition until the call is terminated.

Availability/Reliability

The Interaction Routing platform is built on a highly available, very reliable ACD platform. This platform load shares across redundant sides—in the event of a processor failure the alternate processor picks up the load immediately. In addition to the ACD system, Interaction Routing has all the benefits of CenturyLink's extremely available, reliable voice and data delivery network. The CenturyLink voice network is fault tolerant and capable of routing calls around network failure points, so calls can be delivered, despite many types of network outages. The CenturyLink data network is based upon world-class transmission systems in a fault-tolerant architecture. The benefit is the advantage of a large, service-provider hosted service with a reliable network, delivering rich feature functionality to any size call center.

INTERACTION ROUTING SERVICE**

Appendix 2 – Service Component Details

This section provides a detailed description of the Interaction Routing Service Components which are listed in Section 2 of this Service Attachment.

- **ACD** is an automatic call distributor that routes inbound telephone calls to an agent or machine. Routing can be through basic hunt groups or through enhanced skills or business rules routing. ACD has two inbound agent types:
 - **Quick Launch Agents** are inbound agents using standard hunt groups for call routing. Agents are grouped by primary function (i.e. customer service, sales, billing, etc.) There are no skills, preferences, or business rules available in this group.
 - **Skills Based Agents** are inbound agents that are grouped by skill group. This group includes all the capabilities of Quick Launch Agents plus Skills and Business Rules. Agents can have multiple skills and preferences (levels) within each skill group. Calls are routed based on the skill of the agent anticipated to handle the call. Call routing can also include Business Rules. This incorporates items like performance, account status, etc. to be added to the routing strategies.

- **CTI** is an interface between ACD and the Subscribing Entity(s) database. It allows information to be retrieved and sent to an agent PC screen as the call is transferred to the agent. Professional service is needed to enable this capability. CTI Based Agents include all the capabilities of Quick Launch and Skills Based Agents. CTI includes the Quick Launch desktop and telephone application programming interfaces (“TAPI”) module.

- **Web** is a grouping of applications that integrates web services into a standard call routing environment. If you are on a chat line and want to speak to a company representative, the Web application selects the individual to whom you would talk. It also allows for automatic distribution of email to agents. Web has two agent options: Web Bundled Standalone Agent and Web Bundled Blended Agent. A special web desktop and TAPI device is included. Features include web chat, web call-through, web call-back, and email.

- **Outbound** is an application that dials out and connects the outbound call with a pool of agents when it locates a live voice. This service includes predictive, progressive, and preview modes for the dialing keys. Predictive dialing allows calls to be placed based on assumptions of agent and customer availability. This incorporates agent handling time and establishes call launch rates to allow agent access on live answer. Progressive dialing allows for calls to be originated based on fixed call plans. Typically this feature looks for agent availability before launching the next call. Preview dialing allows the agent to preview the customer and then launch the call when the agent is ready.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

Outbound has two agent options: Outbound Only Agent and Outbound Blended Agent Add On. An outbound desktop and TAPI module is included with this option.

- **Supervisor Standalone** (“Supervisor”) is the management and reporting functionality of the total application. Supervisor includes real-time, historical, and cradle-to-grave reporting capabilities as well as group and functionality management. Supervisor also includes the ability to administer the system including modification of call flows and agent capabilities. Capabilities can vary from manager to manager through the permission tables and are managed by the overall center administrator. To become part of a calling group, the Supervisor must also have one of the agent capabilities (Quick Launch, Skills, CTI, Web, or Outbound). A GUI software package is included with each Supervisor.
- **Workforce™** is an application that enables the Subscribing Entity(s) to forecast and schedule staffing requirements. Workforce provides a tool for scheduling and forecasting workers as well as for managing that the schedule and forecast are accurate (real time adherence). This feature is priced on a per agent basis as an add-on feature. Workforce is available either bundled or standalone. WFM Bundle Add On provides scheduling, forecasting, and real time adherence as a package. WFM Schedule/Forecasting Add On, which provides scheduling and forecasting capabilities, and WFM Adherence, which provides real time adherence, is available as standalone packages.
- The Enhanced Desktop is an upgrade from the basic Quick Launch desktop. Enhanced Desktop enhances the standard Quick Launch desktop with the inclusion of three additional features: timed events, phone book, and modification to attached data

Appendix 3 – Service Features

This section provides an overview of the Interaction Routing Service Featured as referenced in Section 2 of this Service Attachment.

Call Processing

- Blended Inbound & Outbound Call Processing
- Outbound Campaign Management
- Predictive, Progressive & Preview Modes

Queue Processing

- Virtual Queues, Routing Strategy, Call Priorities, Delay Treatments
- Intraflow, Interflow

Message Processing

- Integrated Network IVR
- System Announcements, Music Play
- Multiple Message Profiles
- Personal Agent Announcements
- Digit Collection From Caller

Workforce Management

- Forecast, Scheduling
- Real-time Adherence

Monitoring & Recording

- Next Call, All Calls Monitoring
- Call Recording (third-party)
- Real time Statistics Display
- Agent Desktop Statistics
- Historical and On Demand Reports

Integrated Routing

- Routing to Agent, Place, Group, Queue, External Destination
- Skills Based Routing
- Percentage Distribution Routing
- Load Balancing Between ACD Groups
- Business Factors Driven Routing
- Time/Day, Threshold, Quota, Priority

Escalation - CenturyLink’s escalation procedure is designed to aid in the resolution of any and all service related issues in an expedient manner.

- **Trouble Handling Procedures** - Included in this section are CenturyLink’s trouble resolution procedures. This information is provided for the Subscribing Entity(s) to use as a general guideline when reporting troubles. It is the goal of CenturyLink to assist the Subscribing Entity(s) in determining critical applications and resolution expectations, plus manage trouble resolution accordingly. CenturyLink’s intention is to provide unequalled service and support to the Subscribing Entity(s).
- **Escalation Procedures** - CenturyLink’s trouble reporting procedures automatically provide for timely, upward notification of problems not resolved with established standards. The priority level determines the length of time before the first management level is informed of a problem. Priority 1 outages require full

MASTER SERVICE AGREEMENT
INTERACTION ROUTING SERVICE**

resource application until repaired; escalation occurs around-the-clock until the outage is repaired. The

Subscribing Entity(s) may request increased escalation at any time that there is a perception that the problem is not being properly handled.

- **Trouble Resolution Procedures** - In addition to providing an Account Team, CenturyLink has a 24-hour, customer service support team. This provides enhanced support services to larger and more specialized customers. This group is staffed 24 hours a day, 7 days a week, 365 days a year.

Team Responsibilities - MAST 1-800-524-5249. Responsibilities of the Major Account Service Team (MAST):

- Network Surveillance
- Major Account Outage Notification Procedure
- MAST Escalations - Internal Escalation Intervals:

Trouble Type	Time to Ticket	Ticket to Pickup	Pickup to Initial Status	Subsequent Status Intervals
Critical (Multiple Customer Sites Down Hard)	Immediate	Immediate	30 Minutes	Every 60 Minutes
High (Single Customer Site Down Hard)	Immediate	Immediate	60 Minutes	Every 60 Minutes
Medium (Partial Service Outage)	Immediate	30 Minutes	60 Minutes	Every 2 Hours
Low (Intermittent Trouble)	Immediate	60 Minutes	60 Minutes	Based Upon Request*

Team Members - The Major Account Service Team (MAST) 1-877-842-8669 is designed to aid customers and quickly resolve service issues or line troubles. Additionally, the CenturyLink GES Markets -Ohio Team is designed to help customers with sales support, engineering, and billing issues.

CenturyLink deploys a dedicated Customer Account Team that is responsible for the installation, administration, service, engineering and planning for existing and future applications. The team consists of many CenturyLink professionals specializing in the following areas:

Senior National Accounts Manager is responsible for overseeing the development, implementation, maintenance and growth of the OIT/CenturyLink partnership. In building a partnership with OIT, the SNAM will work for the client to develop key strategies and build the relationship for open communication. SNAM maintains daily contact with customers regarding contract, specifications, technical performance, schedule, and cost.

**SERVICE ATTACHMENT 2
TO THE
MASTER SERVICE AGREEMENT**

**INTERACTION ROUTING™
SERVICE**

National Account Manager is responsible for working with Customers on new products, as well as working with Customers on their future and existing needs. In an effort to meet customer needs, the NAM works closely with the account managers to ensure customer satisfaction

Account Support Specialists are responsible for completing all orders associated with the installation, billing and maintenance of customer service. They are also responsible for processing customer service inquiries.

Sales Engineer is responsible for all engineering functions regarding network, equipment and application interface. The technical advisor is the lead contact on all problem resolution regarding these functions. The engineer is equipped to respond to information regarding the latest technology through continuous update and training and serves as a client technical advisor.

Service Manager supports Customers on trouble resolution to service interruptions or scheduled outages. He works directly with the Major Account Support Team (MAST) to quickly and effectively solve CenturyLink issues.

Sales Support Manager is responsible for service delivery fulfillment and serves as the first point of escalation for the Account Consultants and Service Managers for provisioning, billing and trouble management.

Sales Director is responsible for management performance, and completion of major new and existing telecommunications projects or programs. Manages and directs all phases of each project/program from inception to completion.

These resources plus Customer Service Engineering, Billing, Fraud and Abuse and the Network Management Team are available to support Customer's specific needs. Unlike other larger carriers, CenturyLink offers more flexibility to customize your services quickly.

Hours - Normal business hours are from 8am to 5pm EST.

The Government Account Team should receive all service inquiries and trouble reports during normal business hours. The MAST may also receive service inquiries or reports in the event Customer is unable to reach the Government Account Team.

STANDARD AFFIRMATION AND DISCLOSURE FORM
EXECUTIVE ORDER 2011-12K

Governing the Expenditure of Public Funds on Offshore Services

All of the following provisions must be included in all invitations to bid, requests for proposals, state term schedules, multiple award contracts, requests for quotations, informal quotations, and statements of work. This information is to be submitted as part of the response to any of the procurement methods listed.

By the signature affixed hereto, the Contractor affirms, understands and will abide by the requirements of Executive Order 2011-12K. If awarded a contract, both the Contractor and any of its subcontractors shall perform no services requested under this Contract outside of the United States.

The Contractor shall provide all the name(s) and location(s) where services under this Contract will be performed in the spaces provided below or by attachment. Failure to provide this information may subject the Contractor to sanctions. If the Contractor will not be using subcontractors, indicate "Not Applicable" in the appropriate spaces.

1. Principal location of business of Contractor:

6000 Parkwood Pl Dublin, OH 43016
(Address) (City, State, Zip)

Name/Principal location of business of subcontractor(s):

Not Applicable _____
(Name) (Address, City, State, Zip)

(Name) (Address, City, State, Zip)

2. Location where services will be performed by Contractor:

6000 Parkwood Pl Dublin, OH 43016
(Address) (City, State, Zip)

Name/Location where services will be performed by subcontractor(s):

Not Applicable _____
(Name) (Address, City, State, Zip)

(Name) (Address, City, State, Zip)

3. Location where state data will be stored, accessed, tested, maintained or backed-up, by Contractor:

Not Applicable
(Address)

(Address, City, State, Zip)

Name/Location(s) where state data will be stored, accessed, tested, maintained or backed-up by subcontractor(s):

Not Applicable
(Name)

(Address, City, State, Zip)

(Name)

(Address, City, State, Zip)

Contractor also affirms, understands and agrees that Contractor and its subcontractors are under a duty to disclose to the State any change or shift in location of services performed by Contractor or its subcontractors before, during and after execution of any Contract with the State. Contractor agrees it shall so notify the State immediately of any such change or shift in location of its services. The State has the right to immediately terminate the contract, unless a duly signed waiver from the State has been attained by the Contractor to perform the services outside the United States.

On behalf of the Contractor, I acknowledge that I am duly authorized to execute this Affirmation and Disclosure form and have read and understand that this form is a part of any Contract that Contractor may enter into with the State and is incorporated therein.
