

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

1. BUSINESS PLAN FEATURES, POWERSOURCE™ DEVICES AND OPTIONS.

1.1 Wireless Voice Features.

- A. General.** Wireless voice Services are provided on the Sprint Networks. Wireless voice service areas and international coverage areas may change and are accessible through www.sprint.com or by contacting Subscribing Entity's Sprint Account Representative. Wireless voice Services are not available on the Sprint 4G Network.
- B. Shared Minutes.** Subscribing Entity must have a minimum of 2 Subscribing Entity Active Units in a Shared Minute group. All Subscribing Entity Active Units using the Shared Minutes option must subscribe to a Business Plan with Anytime Minutes. Data-only Business Plans are not eligible for the Shared Minutes option. After a Subscribing Entity Active Unit in a Shared Minute group has exhausted all Anytime Minutes in its Business Plan, the Subscribing Entity Active Unit's additional airtime minutes are billed at the overage rate defined in the associated Business Plan. Eligible Business Plans are available by contacting Subscribing Entity's Sprint Account Representative.
- C. Sprint® Mobile-to-Mobile.** "Sprint Mobile-to-Mobile" means voice calls from one Active Unit on the Nationwide Sprint Network or Nextel National Network to another Active Unit on the Nationwide Sprint Network or Nextel National Network. With this feature, Subscribing Entity may use an unlimited number of minutes each month to make or receive calls on the Nationwide Sprint Network or Nextel National Network between Sprint and Nextel phones. Sprint Mobile-to-Mobile calling does not apply to calls to check voicemail, to obtain directory assistance, or placed through indirect calling methods, and is not available when Roaming.
- D. Additional Lines for Pooling.** The Additional Lines for Pooling feature allows Subscribing Entity to activate a Subscribing Entity Active Unit on a Business Plan with Anytime Minutes and add up to 5 additional Subscribing Entity Active Units (each, a "Secondary Line") to that Business Plan. The Additional Lines for Pooling option is not available with all voice Business Plans. Eligible Business Plans are available by contacting Subscribing Entity's Sprint Account Representative.
- E. Pooled Anytime Minutes.** Business Plans with pooled Anytime Minutes only pool voice minutes of use for Subscribing Entity Active Units on the same billing account. Pooled Anytime Minutes from one Business Plan may not pool with Anytime Minutes from a different Business Plan.

- 1.2 Wireless Data Features.** Sprint provides wireless data solutions and Services over the Nationwide Sprint Network, the Sprint 3G Network and the Sprint 4G Network in certain coverage areas. Coverage areas may change and are accessible through www.sprint.com/coverage or by contacting Subscribing Entity's Sprint Account Representative. When the Sprint 3G Network is available and Subscribing Entity uses a Sprint EVDO-compatible device with a wireless high-speed data Business Plan, Active Units will first attempt to connect to the Sprint 3G Network, and then default to the Nationwide Sprint Network depending on coverage and network availability. When the Sprint 4G Network is available and Subscribing Entity uses a Sprint 4G-compatible device with a Business Plan for Sprint 4G Services, Active Units will first attempt to connect to the Sprint 4G Network, and then default to the Sprint 3G Network or Nationwide Sprint Network depending on coverage and network availability. Access to the Sprint 3G Network or the Sprint 4G Network may require installation of separate software depending on the Product. Wireless high-speed data throughput rates may vary depending on Subscribing Entity's location at the time of use and other factors. Sprint also offers wireless data solutions over the Nextel National Network for select Products.

1.3 Nextel Direct Connect® Features.

- A. General.** Nextel Direct Connect transmissions occur only between Active Units that are each capable of sending and receiving Nextel Direct Connect transmissions. Nextel Direct Connect

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

transmissions do not work simultaneously with a voice call or with active wireless data transmissions from the same Product. Nextel Direct Connect service areas and international coverage areas may change and are accessible through www.sprint.com or by contacting Subscribing Entity's Sprint Account Representative. Nextel Direct Connect Services are not available when Roaming and are not available on the Sprint 4G Network.

- B. Direct Connect®.** All Nextel Direct Connect Products are capable of making nationwide Direct Connect transmissions. If a Subscribing Entity intentionally disables the functionality that allows a Subscribing Entity's own Nextel Devices to communicate with any other Sprint customer's Nextel Device, then Direct Connect service will work only with Subscribing Entity's own Nextel Devices.
- C. Group Connect®.** Group Connect service requires a group-capable device in order to initiate and receive Group Connect transmissions. A Subscribing Entity with a group-capable phone may create a group with any participant, but only those Subscribing Entities with group-capable phones will be pulled into the Group Connect transmission. Group Connect is limited to 21 total participants (including the originator). Each group must consist entirely of either Nextel Devices or Sprint Devices.
- D. International Direct ConnectSM.** International Direct Connect is only available for Nextel Devices subscribed to Direct Connect service. International Direct Connect currently includes both the ability to place Nextel Direct Connect transmissions from the United States to users outside the United States and the ability to place and receive Nextel Direct Connect transmissions from outside the United States in select countries.
- E. Direct SendSM.** Direct Send lets a user send a picture or contact information to another user using the Nextel Direct Connect service. Direct Send is only available on select Nextel Devices.
- F. NextMail®.** NextMail allows a user to use Nextel Direct Connect minutes to record and send voice messages to any e-mail address.
- G. TalkgroupSM.** Talkgroup members must be from the same calling area and be established on the same fleet. Additionally, group members must be in their home calling area to initiate or receive Talkgroup transmissions. Talkgroup is only available for Nextel Devices and can include up to 200 total users. Emergency TalkgroupSM gives the Talkgroup originator, also known as the group coordinator, the ability to contact and preempt all other transmissions for group members.
- H. Priority Connect®.** Priority Connect allows users to preempt the use of Nextel National Network resources when placing and receiving Nextel Direct Connect transmissions. Priority Connect is available only to qualified Subscribing Entities (e.g. emergency "first responders") on specific Business Plans using Nextel Devices.
- I. Direct TalkSM.** Certain Nextel Devices are capable of direct two-way radio transmissions. Direct Talk transmissions do not use the Nextel National Network and require each user to have a Direct Talk-capable Nextel Device using the same radio channel.
- J. TeamDCSM.** TeamDC allows up to 35 nationwide group members (including the group creator), all using Sprint Devices, to participate in a Sprint® Direct Connect® group transmission at the same time. The TeamDC Talker Priority feature allows the TeamDC group originator to designate priority for certain group members to interrupt other participants during the group transmission.
- K. Call Alert.** Call Alert allows a Nextel Direct Connect user to send a repeating alert to notify another Nextel Direct Connect user that the user would like to communicate. Users of Sprint Devices may send one of 20 free, pre-written text messages with a Call Alert to provide more detail to the recipient of the Call Alert.
- L. DC Permissions.** DC Permissions allow a Nextel Direct Connect user to block/allow Nextel Direct Connect transmissions from select individuals. DC Permissions also will block Group Connect

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

transmissions if the Group Connect transmission is initiated by a blocked user. DC Permissions will not block Group Connect or TeamDC transmissions that have a blocked user in the group. DC Permissions is only available on Sprint Devices.

M. SMS Messaging. Nextel Direct Connect users with Sprint Devices may be prompted to send a text or voice SMS message when a Nextel Direct Connect transmission is blocked (e.g. the other user is out of coverage, has his/her device turned off, or is using other Services). Prompted SMS Messaging is only available for Nextel Direct Connect transmissions between two Sprint Devices when the recipient uses a single number for voice calls and Nextel Direct Connect service. Sprint charges for these SMS messages consistent with Subscribing Entity's Business Plan.

1.4 Roaming. Business Plans that include Roaming ("Roaming Included Plans") are not available with single-band phones or whose primary use is outside an area covered by the Nationwide Sprint Network. Sprint may limit or terminate Service if a Subscribing Entity Active Unit user moves outside of the area covered by the Nationwide Sprint Network. Sprint may, without notice, deny, terminate, modify, disconnect or suspend Service to a Subscribing Entity Active Unit if Roaming in a given month exceeds: (1) voice: 800 minutes or a majority of minutes, or (2) data: (a) 300 megabytes for a plan equal to or greater than 5GB/month in total or a majority of kilobytes; or (b) 100 megabytes for a plan less than 5 GB/month in total or a majority of kilobytes. International calling, including in Canada, Mexico, and Guam, is not included in Roaming Included Plans. Wireless data Services and certain calling features (voicemail, caller ID, call waiting, etc.) may not be available while Roaming. Roaming areas may change and Roaming may not be available everywhere; visit www.sprint.com/coverage for details. Roaming is not available on the Nextel National Network or on the Sprint 4G Network.

1.5 Modification. Sprint may modify terms and features of a wireless Business Plan with 30 days' written notice to Subscribing Entities.

2. CHARGES, FEES AND CREDITS.

2.1 Monthly Recurring Charges. Sprint will bill Subscribing Entity(ies) for Wireless Services based on the MRC for the selected Business Plan. Subscribing Entity(ies) will incur overage charges if the minutes or megabytes used exceed the minutes or megabytes allowed under the selected Business Plan. Notwithstanding the foregoing, if Subscribing Entity(ies) purchases Sprint 4G Services on a non-recurring charge basis (i.e., Subscribing Entity(ies) pays a one time charge for use of Sprint 4G Services for a limited time), Subscribing Entity(ies) will be subject to the terms and conditions provided to Subscribing Entity(ies) at the time of purchase.

2.2 Usage Charges.

A. Wireless Voice Usage.

(1) General. Outgoing call usage is calculated from the time Subscribing Entity initiates contact with the Sprint Networks until the connection to the Sprint Networks is broken or dropped, whether or not the actual connection to the intended recipient of the call is successful. There is no call usage for outgoing voice calls that reach a busy signal, a disconnected number or that ring continuously without making connection to the Sprint Networks. Incoming call usage is calculated from the time Subscribing Entity's device connects to the Sprint Networks (which is just before the device starts ringing) until the connection to the Sprint Networks is broken or dropped. There is no call usage for incoming voice calls that Subscribing Entity does not answer or that enter Subscribing Entity's voicemail. For each successful call, Subscribing Entity will be charged a minimum of 1 minute of airtime. After the first minute, airtime charges are rounded-up to the next second or next minute, as specified in the respective Business

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

Plan. On calls that cross time periods (e.g., Anytime Minutes versus Nights and Weekends), minutes are deducted or charged based on the call start time.

- (2) **Long Distance/Special Services.** Subscribing Entities may incur long distance charges (including international calling) or other charges for calls to 800, 866, 877, 888 and other toll-free numbers on Business Plans that do not include long distance. Subscribing Entities also may incur charges for special Services such as directory assistance, operator-assisted calls or call-forwarding, depending on Subscribing Entity's Business Plan.
- (3) **Mobile Termination Charges.** Sprint may impose on Subscribing Entities charges or surcharges for terminating a call to other wireless carriers, such as international mobile termination charges. The amount of the charges and surcharges imposed may vary.

B. Wireless Data Usage.

- (1) **General.** Data usage is calculated from the time Subscribing Entity's device makes contact with the Sprint Networks or Sprint 4G Network until the respective network connection is broken or dropped, whether or not the transmission of data is successful. Data usage may occur on any device capable of data transmission, including handheld devices and devices attached to or embedded in computers and includes sending and receiving e-mail, browsing the Internet, accessing certain Applications, all complete, partial or interrupted uploads or downloads and re-sent data, and unsuccessful attempts to reach websites and other Applications and Services, including those resulting from dropped network connections. Data usage is rounded up to the next whole kilobyte. Rounding occurs every 2 clock hours for a continuous connection, or at the end of each separate session that is initiated and terminated within the 2 hour block. Rounding of data usage charges occurs at the end of each billing period and the total kilobyte charges are rounded up to the next cent. Subscribing Entity's invoice will not separately identify the number of kilobytes attributable to Subscribing Entity's use of specific sites, sessions or Services used. When traveling within the Sprint Networks, a data session may end when moving between coverage areas and a new data session initiated, although no interruption to the actual data session will occur. When traveling between the Sprint Networks and the Sprint 4G Network, a data session will end and a new data session will be initiated. Circuit-switched, modem-to-modem data calls are treated as voice calls and use Anytime Minutes on the associated Business Plan (or are billed at casual voice rates) in lieu of using kilobytes for data usage. Circuit-switched, modem-to-modem data calls are not available on the Sprint 4G Network.
- (2) **Text and Numeric Messaging.** Unless Subscribing Entity has purchased a quantity of messages at a fixed MRC, Sprint will charge Subscribing Entity on a per message basis for text and numeric messaging. Sprint will charge Subscribing Entity the per message rate for each message that exceeds Subscribing Entity's purchased quantity and for all text and numeric messages while Roaming internationally. Text and numeric messaging are not available on the Sprint 4G Network.
- (3) **Premium Services Charges.** Access to, and downloading of, Premium Services is not included in the pricing in the Service Attachment. Charges for Premium Services will be specified at the time of access or will be available at www.sprint.com. Data usage charges also apply to, and are separate from, charges for Premium Services. Even if Subscribing Entity's Business Plan includes unlimited megabytes of data, Subscribing Entity must still pay all charges associated with access or use of Premium Services. Subscribing Entity may block Subscribing Entity Active Units from, or otherwise disable them from using, Premium Services provided by third-party content providers.

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

C. Nextel Direct Connect Usage.

(1) Nextel Direct Connect Transmissions.

- (a) A Nextel Direct Connect transmission begins approximately when Subscribing Entity presses the button to initiate a transmission and ends approximately 6 seconds after completion of a communication (i.e., when Subscribing Entity or another participant releases the button) to which no participant responds within 6 seconds. If a participant responds within 6 seconds, the response is calculated as part of the initial transmission. Subscribing Entity initiates a new transmission if Subscribing Entity responds more than 6 seconds after another participant completes a communication. Airtime charges apply for the entire period of time the transmission is connected to the Sprint Networks. Sprint will charge a minimum of 6 seconds for all Nextel Direct Connect transmissions. After 6 seconds, Nextel Direct Connect airtime on a Nextel Device is rounded up to the next second for each transmission.
- (b) Airtime charges for Nextel Direct Connect transmissions are charged to the Subscribing Entity that initiates the transmission and are calculated by multiplying the duration of the transmission (as calculated above) by the applicable rate and the number of participants.
- (c) For Nextel Devices, Direct Connect, International Direct Connect, Group Connect, Talkgroup, NextMail, and Direct Send minutes of use are deducted from the Direct Connect minutes included in Subscribing Entity's Business Plan and will also incur separate surcharges if the add-on is not included in Subscribing Entity's Business Plan. Subscribing Entity will incur overage charges if the minutes used exceed the minutes allowed under the Business Plan.

(2) Nextel Direct Connect Call Alert Transmissions. Sprint does not charge for sending or receiving Call Alerts. A user will initiate a new push-to-talk transmission by responding to a Call Alert, even if responding within 6 seconds of receiving the alert.

D. Roaming Charges. Voice calls made while off the Nationwide Sprint Network incur separate Roaming charges in addition to minutes of usage, unless Roaming is included in Subscribing Entity's Sprint Business Plan. Domestic Roaming voice rates may be set out in Subscribing Entity's pricing attachment. Domestic Roaming for data is included in Sprint Business Plans. International Roaming rates for voice and data will vary and are accessible through www.sprint.com/international or by contacting Subscribing Entity's Sprint Account Representative. There may be delays in invoicing Roaming charges due to the practices of the Roaming service provider.

- 2.3 Upgrade Charges.** If Subscribing Entity changes an Active Unit device to another device using Wireless Services, Sprint may charge Subscribing Entity an upgrade charge per Active Unit changed.
- 2.4 Reactivation Fee.** If Sprint terminates Service to a Subscribing Entity's Active Unit as permitted under the Agreement or requested by Subscribing Entity, Sprint may require payment of any outstanding account balance before Sprint reactivates Service to the affected Active Unit and Sprint may charge Subscribing Entity a reactivation charge.
- 2.5 Credits for Redialed Calls.** Sprint will provide Subscribing Entity with an airtime credit of at least 1 minute for a call on a Subscribing Entity's Active Unit that is: (a) placed while in an area covered by the Sprint Networks, (b) disconnected due to limitations of the Sprint Networks, and (c) redialed within 1 minute of disconnection. Subscribing Entity must contact Sprint Customer Care within 24 hours of the disconnection and request credit for the call.

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

3. BILLING AND AFFILIATES.

- 3.1 Invoicing.** Unused Business Plan minutes and megabytes do not carry forward. In certain instances (e.g., Roaming charges), Sprint may invoice Subscribing Entity for usage that occurred during a prior invoicing cycle, if not previously invoiced to Subscribing Entity. When Sprint invoices for usage incurred during a prior invoicing cycle, those minutes count against minutes in the current invoicing cycle. Sprint may bill Subscribing Entity on behalf of third party providers of Applications that Subscribing Entity accesses through wireless Products. Subscribing Entity is responsible for all charges for wireless Products and Services associated with each Subscribing Entity's Active Unit. For single payments to be applied across multiple account numbers, Subscribing Entity must identify with its payment the specific amounts paid for each account number.
- 3.2 Account Changes.** Subscribing Entity-requested changes to Business Plans or Wireless Service options may not be effective until the following bill cycle. For Subscribing Entity-initiated Wireless Service cancellations, Sprint will bill Subscribing Entity for the entire month in which Wireless Service was cancelled. When Subscribing Entity changes Business Plans during a bill cycle, minutes and megabytes will be charged under the Business Plan in effect at the time the usage was incurred.

4. PROVISIONING AND RETURNS.

- 4.1 Shipping.** Sprint will ship wireless Products to the delivery location specified in Subscribing Entity's TSR Order. Risk of loss to the wireless Products passes to Subscribing Entity upon the Products' arrival at the delivery location. Title to the wireless Products will pass to Subscribing Entity upon Sprint's receipt of payment in full for the Products, or upon delivery to Subscribing Entity for any Products offered to Subscribing Entity at no charge.
- 4.2 Nonconforming Products.** Subscribing Entity must return nonconforming wireless Products in accordance with Sprint's return policy (see Section 4.3) or Subscribing Entity will be deemed to have accepted the Products. Subscribing Entity may reject wireless Products or shipments that are visibly damaged or defective. Sprint will pay all reasonable ground transportation freight charges associated with returns under this Nonconforming Products Section.
- 4.3 Returns.** For details on Sprint's return policy, please visit sprint.com/returns. Sprint may change its return policy from time-to-time without notice, provided that Subscribing Entity will have a minimum of 14 days to return wireless Products.
- 4.4 Cold Device Policy.** As consideration for Subscribing Entity receiving a subsidy or discount off of the Manufacturer's Suggested Retail Price (MSRP) for a wireless device, Subscribing Entity agrees to activate the device for the applicable minimum TSR Order Term. If Subscribing Entity receives a subsidy or discount off of the MSRP for any wireless device and Subscribing Entity retains the device beyond the applicable return policy period, then Subscribing Entity must (1) activate the device on a valid Business Plan on its Sprint business account within 60 days of the date Sprint ships the device and (2) keep the device activated on its account for a minimum of 60 days. If Subscribing Entity fails to comply with these requirements, Sprint reserves the right to invoice Subscribing Entity for the amount of the subsidy or discount.

- 5. INSURANCE & SERVICE CONTRACT.** Subscribing Entity(ies) may purchase a bundled program of insurance (Equipment Replacement Program) and service contract (Equipment Service and Repair Program) that provides coverage to protect against loss, theft, damage or mechanical/electrical failure involving Subscribing Entity's wireless Products (collectively, the "Total Equipment Protection" or "TEP"). TEP may not be available for all wireless Products. If Subscribing Entity purchases TEP, Sprint will waive repair fees under the service contract at the time of repair or replacement at a Sprint Service Repair Center. A per-claim deductible will apply for approved insurance claims. Insurance is administered by third

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

party insurers and not by Sprint. If Subscribing Entity selects TEP coverage, Sprint will charge Subscribing Entity a monthly insurance premium and service contract fee per covered wireless Product, and Sprint will remit the insurance premium portion to the third party insurer on Subscribing Entity's behalf. Insurance is not subject to any discounts. Insurance claims must be submitted directly to the third party insurer. Terms of TEP coverage are available in subsequent communications. If Subscribing Entity does not purchase TEP coverage, Sprint reserves the right to charge a fee for repair to malfunctioning wireless Products, regardless of warranty period, and Subscribing Entity will not be able to replace lost, stolen or non-repairable wireless Products without incurring costs. Subscribing Entity may purchase the Equipment Replacement Program or the Equipment Service and Repair Program separately on a stand-alone basis.

6. WIRELESS PRODUCTS AND SERVICES POLICIES.

- 6.1 Lost or Stolen Wireless Product Policy.** If Subscribing Entity's wireless Product is lost or stolen, Subscribing Entity must notify Sprint Customer Care promptly to deactivate the Product. Subscribing Entity is responsible for all Wireless Service charges associated with the Product before Subscribing Entity notifies Sprint of the loss or theft. Sprint may require that Subscribing Entity provide evidence of the loss or theft (e.g., a police report or affidavit). If the wireless Product is later found, Sprint may require Subscribing Entity to exchange the wireless Product for another wireless Product before reactivating Wireless Service and, in such cases, Sprint will provide a replacement wireless Product of similar quality at Sprint's expense.
- 6.2 Fraud Policy.** Sprint will notify Subscribing Entity, and Subscribing Entity will notify Sprint's Customer Care department promptly, of any suspected fraudulent use of wireless Products or Services. Subscribing Entity will cooperate with Sprint in the investigation and resolution of the incident.
- 6.3 Location Based Services.** If Subscribing Entity downloads or accesses Location Based Services through Sprint wireless Products and Services, Subscribing Entity agrees that the Location Based Service provider may access, use and disclose as necessary the geographic location of Subscribing Entity's Product(s) pursuant to the terms of the Location Based Service purchased by Subscribing Entity. Subscribing Entity must clearly, conspicuously and regularly notify all of its users who use Subscribing Entity's Active Units upon which Subscribing Entity has enabled Location Based Services that user location information may be accessed, used or disclosed in connection with the Location Based Service. Subscribing Entity's Location Based Services are not available on the Sprint 4G Network.
- 6.4 Premium Services Policies.** In certain instances, subject to the terms of the content purchased, Sprint may delete Premium and non-Premium items downloaded to storage areas controlled by Sprint, including any pictures, games and other content. Sprint may impose a dollar or other limit on Subscribing Entity's use of Premium Services in a specific timeframe (month, week, day, or other time period) based on Subscribing Entity's credit.
- 6.5 Business Plans and Features.** Certain wireless Products require specific Business Plans for operation on the Sprint Networks or the Sprint 4G Network. Certain Business Plans, add-ons, features and equipment discounts may not be available on all wireless Products. More information is available by contacting Subscribing Entity's Sprint Account Representative.

7. WIRELESS SERVICE LIMITATIONS.

- 7.1 Telephone Numbers and Portability.** Sprint may change the telephone number assigned to each Subscribing Entity's Active Unit with reasonable prior notice for commercial reasons, such as fraud prevention, regulatory requirements and area code changes. Subscribing Entity does not have any right of possession or title to any number, e-mail address or other identifier Sprint may assign to Subscribing Entity's wireless Products or accounts. Subscribing Entity may not modify, change or

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

transfer any of these identifiers except as Sprint allows or as allowed for by law. Sprint will comply with any FCC-issued regulations that require Sprint to allow Subscribing Entity to "port" or transfer its assigned telephone numbers upon switching wireless service to another carrier. Before a telephone number previously used with another carrier can be used on the Sprint Networks, Subscribing Entity must provide information about the account with the other carrier, such as the account number, tax identification number, telephone number, 5 digit zip code and password, if applicable, and purchase wireless Products from Sprint. Until the port from the previous carrier is successful, the Sprint wireless Product will only be able to call 911 and Sprint Customer Care. Once the port is completed, Subscribing Entity's old device will no longer work. **However, due to system limitations and issues outside Sprint's control, some requests to port a telephone number from another carrier to Sprint, or from Sprint to another carrier, may not be successful.** If a transfer to Sprint is not successful, Subscribing Entity may return any Sprint wireless Products within the return period to receive a credit, and Subscribing Entity will lose or repay to Sprint any discounts or service credits provided with a returned Sprint wireless Product or cancelled Nextel Service or Sprint Service. If Subscribing Entity transfers a number to another carrier before the end of any minimum term commitment, Subscribing Entity may be subject to early termination fees.

- 7.2 TTY Access.** TTY-capable wireless Products (also known as TDD or Text Telephone) may not function effectively when attempting 911 calls due to the limitations of the answering agency. A TTY-capable wireless device should not be relied on for 911 calls.
- 7.3 Pay-Per-Call Services.** Sprint will not complete calls from any wireless Product to 900, 976 and similar numbers for pay-per-call services.
- 7.4 International Call Blocking.** Sprint will block international calling capability unless Subscribing Entity expressly requests such capability for a Subscribing Entity's Active Unit.
- 7.5 Caller ID.** Caller identification information may not be available for all incoming calls.
- 7.6 911 or Other Emergency Calls.** For 911 calls, an emergency responder's ability to locate Subscribing Entities through wireless Products and Services may be affected by various factors, including but not limited to, the type of wireless Product used, lack of a GPS-enabled device, geography or other factors such as the porting process. In some areas and depending on the equipment deployed by the local public safety answering point ("PSAP"), 911 calls may be routed to a state patrol dispatcher instead of the local PSAP. Sprint is not liable for failures or delays in connecting to the appropriate emergency services provider. Enhanced 911 ("E911") service that is compatible with FCC technical requirements is not available in all areas due to PSAP equipment capabilities. Subscribing Entities consent to Sprint's disclosure of Subscribing Entities' information to governmental and public safety authorities in response to emergencies. This information may include, but is not limited to, Subscribing Entity's name, address, number, and the location of the user of the Service at the time of call.
- 7.7 Use of Sprint Wireless Data Services.** For devices that allow multiple users to share one connection and subscription, the wireless performance may degrade as more users are added to the single device. Use of Sprint wireless data Services is subject to any storage, memory or other Product limitation. Network speeds (including, but not limited to, data delivery and latency rates) are estimates based on averages. Actual performance may vary, and no minimum speed is guaranteed. Wireless data Services may not be available when Roaming and are not currently available in certain portions of select market areas within the Sprint Networks. Subscribing Entity acknowledges that use of certain wireless data Services, including some messaging services, may result in the disclosure to third parties of the user's email address and other information in connection with the user's Internet usage. As a result, Subscribing Entity may receive advertising, warnings, alerts and other messages, including broadcast messages.

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

7.8 Prohibited Network Uses.

A. General. Sprint reserves the right, without notice or limitation, to limit throughput speeds or quantities or to deny, terminate, end, modify, disconnect, or suspend wireless Service if a wireless Product engages in any of the prohibited voice or data uses detailed below or if Sprint, in its sole discretion, determines action is necessary to protect the Sprint Networks or Sprint 4G Network from harm or degradation.

(1) Examples of Prohibited Voice Uses. Sprint wireless voice Services are provided solely for live dialogue between, and initiated by, individuals. Sprint wireless voice Services may not be used for any other purposes, including but not limited to: monitoring services, transmission of broadcasts, transmission of recorded material, telemarketing, autodialed calls, or other connections that do not consist of uninterrupted live dialogue between individuals.

(2) Examples of Prohibited Data Uses. Sprint wireless data Services are provided solely for purposes of web surfing, sending and receiving email, photographs and other similar messaging activities, and the non-continuous streaming of videos, downloading of files or on-line gaming. Sprint wireless data Services may not be used: (a) to generate excessive amounts of Internet traffic through continuous, unattended streaming, downloading or uploading of videos or other files or to operate hosting services including, but not limited to, web, video surveillance, or gaming hosting; (b) to maintain continuous active network connections to the Internet such as through a web camera or machine-to-machine connections that do not involve active participation by a person; (c) to disrupt email use by others using automated or manual routines, including, but not limited to, "auto-responders" or cancel bots or other similar routines; (d) to transmit or facilitate any unsolicited or unauthorized advertising, telemarketing, promotional materials, "junk mail", unsolicited commercial or bulk email, or fax; (e) for activities adversely affecting the ability of other people or systems to use either Sprint's Wireless Services or other parties' Internet-based resources, including, but not limited to, "denial of service" (DoS) attacks against another network host or individual user; (f) for an activity that connects any device to personal computers (including, but not limited to, laptops), or other equipment for the purpose of transmitting wireless data over the Sprint Networks or Sprint 4G Network (unless Subscribing Entity is using a plan designated for such usage); (g) by a Wireless Data Connection Device in excess of: (i) the total data usage allowed by Subscribing Entity's plan, (ii) 300 MB/month while Roaming for a plan equal to or greater than 5GB/month in total or 100 MB/month while Roaming for a plan less than 5 GB/month in total, or (iii) a majority of kilobytes while Roaming; provided that Subscribing Entity's Wireless Data Connection Devices on "unlimited" Business Plans will not be subject to the total data usage limitation but are subject to the Roaming limitations; or (h) for any other reason that, in Sprint's sole discretion, violates Sprint's policy of providing Service for individual use.

B. Unlimited Use Plans. Unless specifically stated otherwise, wireless Products on "unlimited" Business Plans are subject to the Prohibited Network Uses in this section. Other Business Plan options for these types of Applications are available by contacting Subscribing Entity's Sprint Account Representative.

7.9 Compatibility of Wireless Products and Services. Wireless Products may not be compatible with services provided by other wireless carriers, except for services provided over Sprint Service Provider Affiliate networks or in connection with Roaming agreements. Sprint phones have a software programming lock that protects certain of the handset's operating parameters against unauthorized reprogramming. Information and eligibility requirements for obtaining the software program lock code for Subscribing Entity's Sprint phones are available at www.sprint.com or by calling 1-888-211-4727. Sprint does not guarantee current or future compatibility of wireless Products or Services with third

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

party products or Applications. Apparent compatibility or notice from Sprint of compatibility is not a Sprint endorsement of a third party product or Application. Unless otherwise stated in the Agreement, Sprint may, in its sole discretion and at any time, disable or discontinue use of any third party product or Application with the wireless Products or Services.

7.10 Technology Evolution.

- A.** In the normal course of technology evolution and enhancement, Sprint continually updates and upgrades its Networks, Products and Services. In some instances, these efforts will result in the need to ultimately replace certain offerings or technologies. In such event, Sprint will undertake such replacement efforts in a Subscribing Entity-focused and commercially reasonable manner and will, throughout the process, provide its Subscribing Entities with periodic updates that provide relevant information.
- B.** As part of such technology evolution, Sprint reserves the right to migrate Subscribing Entities from Products activated on the Nextel National Network to either a Sprint® Direct Connect® push-to-talk ("PTT") Product, or a Subscribing Entity-selected non-PTT Product, that runs on the Nationwide Sprint Network. Sprint will begin coordinating migration schedules with affected Subscribing Entities after the new technology becomes available, but Sprint intends to give at least six (6) months prior notice before there is a complete shut-down of the Nextel National Network. Because there may be at least six (6) months prior notice, in many instances Subscribing Entities should have the ability to upgrade their existing devices to new or replacement devices under the then effective and applicable Sprint handset upgrade program. If Subscribing Entity has any devices that are not eligible for upgrade under this handset upgrade program, Sprint and Subscribing Entity will discuss an alternative process for replacement of devices with devices that are compatible with the replacement technologies. If Sprint exercises its right to migrate Subscribing Entities to a new technology under this provision, upon completion of such migration, the terms and provisions of the Agreement related solely to the Nextel products and services will terminate. In addition, the Parties recognize that they may need to amend the Agreement to add new terms related to such successor technologies.

8. WIRELESS SERVICE PROBLEMS AND PRODUCT FAILURES.

- 8.1 Conditions Affecting Wireless Service.** Sprint is not liable for (a) coverage and Wireless Service quality problems caused by atmospheric, geographic or topographic conditions or other conditions beyond Sprint's control including the failure of other service providers; (b) interruption and unavailability of Wireless Services due to coverage, capacity, Product failure or other limitations that may occur in the transmission or attempted transmission of Wireless Services; or (c) outages or Wireless Service disruptions occurring as a result of a public safety emergency.
- 8.2 Wireless Service Outages and Product Failures.** Notwithstanding anything to the contrary in the Agreement, Sprint's maximum liability for any loss or damage arising out of a Wireless Service outage or wireless Product failure is limited to: (a) a prorated portion of the applicable MRC based on the time period Wireless Services are not available, and (b) a refund of the net purchase price of affected wireless Products.

9. DEFINITIONS.

- 9.1 "Active Unit" or "Line"** means an active piece of wireless Product.
- 9.2 "Anytime Minutes"** means the voice minutes of use that are available in a Business Plan that may be used at anytime other than during Nights and Weekends.

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

- 9.3 **"Applications"** include email, and data, information and other wireless Internet services.
- 9.4 **"Business Plans"** means Sprint and Nextel wireless service plans for Subscribing Entities. Certain Business Plan options are priced in the Service Attachment or Subscribing Entities may select from any other available Business Plans, subject to the terms and pricing of that Business Plan.
- 9.5 **"Domestic Roaming"** means Roaming on networks within the United States, Puerto Rico and U.S. Virgin Islands where Sprint has a roaming relationship with the carrier.
- 9.6 **"Fleet"** means one or more mobile units under one walkie-talkie dispatch, which helps designate Direct Connect numbers, like an area code.
- 9.7 **"Location Based Service"** means any Service or Application that uses, accesses, tracks or discloses the location of an Active Unit.
- 9.8 **"MRC"** means monthly recurring charge.
- 9.9 **"Nationwide Sprint Network"** means the Sprint-owned or controlled CDMA/1xrtt wireless network, including network owned or controlled by Sprint Service Provider Affiliates, used by Sprint to provide Sprint Services.
- 9.10 **"Nextel Device"** means a Product that uses the Nextel National Network for Nextel Direct Connect service, including a PowerSource device.
- 9.11 **"Nextel National Network"** means the Sprint-owned or controlled iDEN wireless network, including network owned or controlled by Nextel affiliates or partners, used by Sprint to provide Nextel Services.
- 9.12 **"Nextel Services"** means wireless Services provided by Sprint on the Nextel National Network using iDEN technology.
- 9.13 **"Nights and Weekends"** means Monday through Thursday 9:00 p.m. to 7:00 a.m. and Friday 9:00 p.m. to Monday 7:00 a.m., unless either the Nights and Weekends at 6pm option or Nights and Weekends at 7pm option is selected. **"Nights and Weekends at 6pm"** means Monday through Thursday 6:00 p.m. to 7:00 a.m. and Friday 6:00 p.m. to Monday 7:00 a.m. **"Nights and Weekends at 7pm"** means Monday through Thursday 7:00 p.m. to 7:00 a.m. and Friday 7:00 p.m. to Monday 7:00 a.m. The time used to determine Nights and Weekends eligibility is the local time where the wireless Product is located when an inbound or outbound call originates.
- 9.14 **"Premium Services"** means downloads and Applications, such as games, ringers and screen savers, available through wireless data Services that are above and beyond basic data usage.
- 9.15 **"Recipient"** means – a user that receives Products and/or Services.
- 9.16 **"Roaming"** means voice or data service provided on another wireless carrier's network through agreements established by Sprint.
- 9.17 **"Smartphone"** is a wireless Product designated by Sprint as a Smartphone, with an advanced operating system, that offers more advanced computing ability and connectivity than a traditional feature phone.
- 9.18 **"Sprint 3G Network"** means the Sprint-owned or controlled CDMA/EV-DO wireless network, including network owned or controlled by Sprint Service Provider Affiliates, used by Sprint to provide Sprint Services.
- 9.19 **"Sprint 4G Network"** means a wideband OFDM technology, such as WiMax or LTE, or successor technologies that Sprint owns or resells, including network components owned or controlled by Sprint Affiliates or partners.

ADDENDUM 1
WIRELESS SERVICES PRODUCT ANNEX

- 9.20 **“Sprint 4G Services”** means functionality provided by Sprint that either provides data transport on the Sprint 4G Network or allows for the use of Applications related to the Sprint 4G Network.
- 9.21 **“Sprint Device”** means a Product that uses the Sprint 3G Network for Sprint® Direct Connect® service.
- 9.22 **“Sprint Networks”** includes the Nationwide Sprint Network, the Sprint 3G Network, the Sprint 4G Network, and the Nextel National Network.
- 9.23 **“Sprint Service Provider Affiliate”** means an entity that has entered into an arrangement with Sprint to construct wireless network coverage, perform operational functions in defined geographic areas, and provide mobile wireless telecommunications products and services under the “Sprint” service marks or any other service marks subsequently used by Sprint.
- 9.24 **“Sprint Service Provider Affiliate Market”** means the regions of the United States covered by Sprint Service Provider Affiliates.
- 9.25 **“Sprint Services”** means wireless Services provided by Sprint and authorized Sprint Service Provider Affiliates on the Nationwide Sprint Network or Sprint 3G Network using CDMA technology.
- 9.26 **“User”** means a person that uses Products and/or Services.
- 9.27 **“Wireless Data Connection Device”** means a mobile broadband card, USB modem, embedded modem, or a mobile phone that is used as a modem to connect a laptop computer to the internet using a USB cable or the built-in connection on Bluetooth-enabled phones.
- 9.28 **“Wireless Services”** includes Nextel Services, Sprint Services and Sprint 4G Services.
