   a) Contract Field Guide
Overview: The State of Ohio’s Department of Administrative Services (DAS) is responsible for the management of statewide Supplier contracts. Agencies can create and manage contracts that apply only to their agency. The process of creating, negotiating, signing, and maintaining contracts happens within Ohio|Buys and is complete once a contract is signed by the State and the Supplier.

Processes Covered:

1) **Contract Creation:** When a recommendation for award is made after a solicitation or when the need arises, a contract record should be created. This contract record contains important details related to the contract such as the Supplier’s information, the start date of the contract, and the expiration date.

2) **Contract Review:** During negotiations, the contract can be authored directly within Ohio|Buys or edited offline then uploaded into the system. Contract teams allow users to manage security for each contract individually. Teams also pull in necessary subject matter experts to review and approve. The contract workflow routes each contract to the approvers that have been selected.

3) **Contract Maintenance:** Different activities related to maintaining the contract record throughout its lifecycle can be conducted directly within Ohio|Buys. Users can terminate, suspend, and amend a contract if the need arises.
Ways to Use the Contracts Module:

- **Introductory Users**: Users who are leveraging contracts at this level will create a contract record in Ohio|Buys and leverage contract attachments to house important documents.

- **Core Users**: Users who are leveraging contracts at this level will create the contract record and author a contract directly in Ohio|Buys using Native or MS Word Authoring. A price list, dealers, and/or subcontractors may also be added. The contract will be signed using OneSpan Sign.

- **Full Users**: Users who are leveraging contracts at this level will create the contract record and author a contract directly in Ohio|Buys using Native or MS Word Authoring. Additional details such as price list, dealers, and/or subcontractors may also be added. After the contract is signed, the lifecycle is maintained. Activities such as Change Requests and Supplier Performance can be tracked on the contract record.

Please note, certain sections of this learner guide only apply to specific usage levels. To determine which sections of this learner guide you will need to review, please refer to the table on the following page.

CREATE A CONTRACT WITHOUT AN OHIO|BUYS SOLICITATION

Overview

- **What’s Covered**: This section walks through the process of creating a contract record within Ohio|Buys that is not linked to a solicitation.
- **Used When**: A contract record needs to be created.
Step-by-Step Instructions for Creating a Contract Without An Ohio|Buys Solicitation

▲ Contracts can be created from a solicitation or as a stand-alone record. Users cannot retroactively link a solicitation to a contract. For instructions on how to create a contract from a solicitation or “flip a solicitation”, click here or refer to the Create a Contract from a Solicitation section of this learner guide.

Log in to Ohio|Buys. From the Main Menu Navigation Bar, click Contracts and then select Create from the drop-down menu.

In the General Information box, populate the mandatory Contract Type (e.g., Competitive Selection, Requisite Program) and the Contract Sub-Types fields (e.g., Enterprise Contract, Master Services Agreement) based on the executed contract.

▲ Please consult the table of Contract Types and Contract Sub-Types at the end of this section for an overview of the varying types and who can create each type of contract.

▲ The Bypass Negotiation checkbox is engaged by default. If you intend to engage in Supplier redlining and negotiations through Ohio|Buys, you may uncheck it.

▲ When selecting Competitive Selection, Competitive Selection – Two Phase, Waiver of Competitive Selection, or Requisite Program a mandatory Revenue Share field will appear.
Step-by-Step Instructions for Creating a Contract Without an Ohio|Buys Solicitation

a) In the Contract Header box, populate the mandatory fields:

- **State Contract Number**: This is the contract number that will be in OAKS. Note that this field will automatically populate with the Contract ID generated by Ohio|Buys (e.g., CTR002226), but can be modified as needed.

- **Name**: This will be the contract name.

- **Contracting Entity**: The contracting entity should reflect the agency or group responsible for initiating the contract. For example, contracts issued by the DAS office of Procurement Services should contain “DAS-Administrative Services” as the Contracting Entity.

- **Market Type**: This field indicates the type of Suppliers that are on the contract. (e.g. MBE, EDGE, CRP)

- **Contract Owner**: OIT contracts will affect the direction of the purchase requisition workflow for IT commodities.

- **Bill Type**: Designates who should be billed to pay for costs associated with administering the contract. (e.g., the agencies using the contract, the supplier holding the contract, both, neither, etc.)

- **Catalog Enabled**: Indicates what type of catalog is setup for this contract. (e.g. hosted or punchout)

b) Populate the **Supplier** field with the Contractor’s name associated with the contract record. The hyperlink icon links to the Supplier’s record in Ohio|Buys.

c) Populate the remaining non-mandatory fields as necessary

▲ For a complete list of contract fields, refer to the **Contract Field Guide** at the end of this document.
Step-by-Step Instructions for Creating a Contract Without An Ohio|Buys Solicitation

In the Contract Scope box, choose the mandatory **Participating Organizations** and **Commodities** field:

a) **Participating Organizations** field: Select the organizations the contract is for, which determines the agencies and/or divisions that can order from the contract.

1) To most effectively choose the Organization, click the **Selector** (▼) icon and then select **See All**. A pop up will appear with the organizational hierarchy.

2) Under Organizational Hierarchy, click the **Expand** (►) icon next to OHIO. If you are creating an agency contract, click the **Expand** (►) icon next to State Agencies.

3) Click the **Hand** (✍) icon to select all values beneath the listed organization or click the **Checkbox** (☐) icon next to each organization to select an individual or a few organizations.

4) Click the **X** (❌) icon once you have selected your organizations to move on.

b) **Commodities** field: Indicate the commodities tied to the contract based on the scope of the contract.

1) To select the Commodities, type the code or description into the **Commodities** field and select the applicable commodity from the results displayed beneath the field.

   ▲ If you are having trouble finding the correct commodity in Ohio|Buys, you can also visit the UNSPSC website (https://www.unspsc.org/search-code) to search for a commodity.

   ▲ You can also follow the same steps used to complete the Organizations field to complete the Commodities field. However, when browsing the commodities list, either click the **Hand** (✍) icon to select all values beneath the listed commodity or click the **Checkbox** (☐) icon next to each commodity to select an individual or a few commodities.

2. If you are selecting more than one commodity code, repeat step 1.
Step-by-Step Instructions for Creating a Contract Without An Ohio|Buys Solicitation

In the **Contract Dates** section, populate the mandatory fields:

a) **Effective Date** indicates the contract start date.

b) **Original End Date** field with the original or initial contract end date.

▲ For more information on how to use these fields, refer to the [Contract Field Guide](#) at the end of this document.

---

a) The **Expiration Notification** section contains information about when an expiration notification will notify the contract team to review the contract for potential renewal, which usually requires an amendment. Users can enter a digit into the **Notification Period** field to represent the number of months before the **Current End Date** (and if the **Current End Date** isn’t populated, then before the Original End Date), that an e-mail notification will be sent. The **Notification Date** field is automatically populated with the exact day that is 6 months before the **Current End Date** or **Original End Date**.

b) The **Termination** section is not mandatory and is only used if and when the contract needs to be terminated prior to the **Original End Date** or **Current End Date**.

▲ For more information on how to use these fields, refer to the [Contract Field Guide](#) at the end of this document.
Click **Save**.

Once you click **Save**, the following tabs on the left side of the page become visible: Overview, Contract tree view, Contacts, Documents, Price List, Orders, Workflow, Evaluation, Dealers, Subcontractors, Supplier Change Request, Exceptions, Usage Report, Payment, and Confidential Documents.

You have now completed the steps for setting up a stand-alone contract in Ohio|Buys. To complete the contract details, refer to “Completing the Contract Details” for instructions on completing the contract details.
CREATE A CONTRACT FROM A SOLICITATION

Overview

• **What’s Covered:** This section walks through the process of creating a contract record within Ohio|Buys from an existing solicitation.

• **Used When:** A solicitation award has been made and a contract linked to the solicitation needs to be created.
Creating a Contract from a Solicitation

Step-by-Step Instructions for Creating a Contract from a Solicitation

1. Contracts can be created from a solicitation or as a stand-alone record. For instructions on how to create a stand-alone contract, click here or refer to the previous section of this learner guide.

Log in to Ohio|Buys. From the Main Menu Navigation Bar, click Sourcing and then select Sourcing Projects from the drop-down menu.

2. Search for the solicitation number in the Keywords fields. Click the Pencil (✏️) icon next to the solicitation.

Navigate to the Review Award Results tab on the left-hand side.
Creating a Contract from a Solicitation

Step-by-Step Instructions for Creating a Contract from a Solicitation

Click the **Create/Update a contract** button. This button is located on the Review Award Results tab in the Take Actions section of the Contract column.

The default option is to create a new contract. If you are updating an existing agreement, select the radio button for **Existing Contract** and then select the contract that requires updating.
In the General Information box, populate the mandatory fields:

a) **Name**: The name of the agreement.

b) **Contract Type**: Indicates the type of agreement.

   ▲ Please consult the table of Contract Types and Contract Sub-Types at the end of this section for an overview of the varying types and who can create each type of contract.

c) **Contracting Entity**: The contracting entity should reflect the agency or group responsible for initiating the contract.

   ▲ For example, contracts issued by the DAS Office of Procurement Services should contain “DAS-Administrative Services” as the Contracting Entity.

The organizations and commodities will default from the solicitation into the **Scope of Application** section. Refer to the next page for details on adding additional organizations and commodity codes.
Creating a Contract from a Solicitation

Step-by-Step Instructions for Creating a Contract from a Solicitation

In the Contract Scope box, choose the mandatory Participating Organizations and Commodities field:

a) Participating Organizations field: Select the organization the contract is for, which determines the agencies and/or divisions that can order from the contract.
   1) To most effectively choose the Organization, click the Selector ( ) icon and then select See All. A pop up will appear with the organizational hierarchy.
   2) Under Organizational Hierarchy, click the Expand ( ) icon next to OHIO. If you are creating an agency contract, click the Expand ( ) icon next to State Agencies.
   3) Select the Checkbox ( ) icon next to OHIO for a state-wide contract. For agency contracts, select the Checkbox ( ) icon next to the agency name.
   4) Click the X ( ) icon once you have selected your organizations to move on.

b) Commodities field: Indicate the commodities tied to the contract based on the scope of the contract.
   1) To select the Commodities, type the code or description into the Commodities field and select the applicable commodity from the results displayed beneath the field.
   ▲ If you are having trouble finding the correct commodity in Ohio|Buys, you can also visit the UNSPSC website (https://www.unspsc.org/search-code) to search for a commodity.
   ▲ You can also follow the same steps used to complete the Organizations field to complete the Commodities field. However, when browsing the commodities list, either click the Hand ( ) icon to select all values beneath the listed commodity or click the Checkbox ( ) icon next to each commodity to select an individual or a few commodities.
   2. If you are selecting more than one commodity code, repeat step 1.
Step-by-Step Instructions for Submitting a Hosted Catalog Pcard Purchase

8. The contract’s team members will default with the team members from the solicitation. To remove team members uncheck the box next to the user’s name.

   Team members to add
   - Sender
   - Contact
   - Email
   - Profiles at start on Sourcing Projects
   - Profiles on arrival at Contracts
   - BRADLEY
   - Annina ariamabradley@kpmg.com ariamabradley@kpmg.com
   - Responsible (Sourcing Projects)

   To change or add a role to a user, select a value in the Profiles on arrival at Contracts column.

9. If needed, you can de-select the items that should be in this contract. An example of when this would need to happen would be if different commodity groups or items should only be accessible to certain organizations and, therefore, be separated into multiple contracts for one solicitation.

   Proposal items to add
   - Order
   - Code
   - Type
   - Label
   - Qty
   - Deliv. date
   - Unit
   - Unit price
   - Amount
   - Deliv. date
   - Contract
   - Item 1.1
   - Required Item
   - Couch
   - 20.0000
   - 9/30/2020
   - Each
   - 180.00
   - 3,600.00

10. Click Save and Close.

11. Click the hyperlink to open the newly created contract.
Click the **Header** tab.

▲ By default, the Bypass Negotiations checkbox will be engaged. If you intend to engage in negotiations involving redlining with the Supplier, you may disengage this checkbox.

a) In the General Information section, select the **Contract Sub-Type**.

▲ Please consult the table of Contract Types and Contract Sub-Types at the end of this section for an overview of the varying types and who can create each type of contract.

▲ If the **Contract Type** is Competitive Selection, Competitive Selection – Two Phase, Waiver of Competitive Selection, or Requisite Program then the mandatory **Revenue Share** field will appear.

b) In the Contract Header section, populate the remaining mandatory fields:

- **State Contract Number**: Note that this field will automatically populate with the Contract ID generated by Ohio|Buys, (e.g., CTR002226) but can be modified as needed.

- **Market Type**: This field indicates the type of Suppliers that are on the contract. (e.g. MBE, EDGE, CRP)

- **Contract Owner**: OIT contracts will affect the direction of the purchase requisition workflow for IT commodities.

- **Bill Type**: Designates who should be billed to pay for costs associated with administering the contract. (e.g., the agencies using the contract, the supplier holding the contract, both, neither, etc.)

- **Catalog Enabled**: Indicates what type of catalog is setup for this contract (e.g. hosted or punchout).

c) Populate the remaining non-mandatory fields as necessary.

▲ For a complete list of contract fields, refer to the Contract Field Guide at the end of this document.
Creating a Contract from a Solicitation

Step-by-Step Instructions for Creating a Contract from a Solicitation

In the **Contract Dates** section, populate the mandatory fields:

a) **Effective Date** (i.e., the contract start date)

b) **Original End Date** field with the original or initial contract end date.

▲ For more information on how to use these fields, refer to the [Contract Field Guide](#) at the end of this document.

---

13

---

a) The **Expiration Notification** section contains information related to how Ohio|Buys should send out automatic communications related to renegotiating or terminating a contract. These fields also trigger status changes for the contract to let users know a contract is about to expire. Complete the fields that are applicable to your contract.

b) The **Termination** section is not mandatory and is only used if and when the contract needs to be terminated.

▲ For more information on how to use these fields, refer to the [Contract Field Guide](#) at the end of this document.

• Author a Contract (Native)
• Author a Contract (MS Word)
ADD CONTRACT CONTACTS

Overview

- **What's Covered**: This section walks through the process of completing additional tabs on the contract record related to team members, terms/conditions, or payment.
- **Used When**: A new contract record is created in Ohio|Buys.
Navigate to the **Contacts** tab to add Supplier and internal contacts:

a) To add a Supplier contact:
   1) **Click Select Existing Contact.**
      - If the Supplier will be responsible for submitting redlines in Ohio|Buys, then a contact must be selected in order for them to be able to edit the contract. Supplier contacts not selected will have view-only access.
      - If a Supplier contact does not exist in Ohio|Buys, please reach out to the Supplier and ask them to update their contacts.
   2) Scroll to the relevant Supplier contact and click the **Checkbox ( )** icon next to their name. The Supplier contact has been added to the contract record.
      - You can also input a keyword in the Keywords field or select a Supplier from the Supplier field and then click Search to find a specific Supplier contact.

b) The “Internal team” lists all state employees, who can be added as team members to view and approve the details of this contract. To add internal contacts:
   1) Type the internal contact’s name in the **Select Team** field.
   2) Select their name from the drop-down menu.
c) If you want to change an internal contact’s local profile on the contract:

1) Click the X (❌) icon in their current profile to first remove the assigned profile.
2) Click the Selector (_dropdown) icon and select the applicable profile from the drop-down menu:
   - **Reviewer**: This role allows a user to view and edit a contract.
   - **Legal (Contract)**: This role pulls in a user during the Legal Approver step of the contract approval workflow. This role cannot edit the contract.

▲ If you would like your agency’s legal users to be able to review and redline your Main Contract documents when the contract is being drafted and before it formally goes to the Legal Approver step of the workflow, please also assign your legal users the Contributor/SME (Contract) profile.

- **Other Approver 1/2/3/4 (Contract)**: This role pulls in a user during the Other Approvers step of the contract approval workflow. This role cannot edit the contract.

▲ Other Approvers can be selected in a sequential order with up to 4 Other Approvers. They will each need to approve the contract in order for it to advance.

- **Responsible (Contract)**: This role can only be assigned to one person. This person is responsible for managing the contract and will receive automatic notifications from Ohio|Buys regarding renewals, amendments, and change requests.

- **Contributor/SME (Contract)**: This role allows a user to have the ability to find the contract in Browse Contracts page and review/redline Main Contract documents.

You have now completed the steps for adding contacts to a contract record in Ohio|Buys. To complete the remaining contract details, refer to **“Add Payment & Negotiated Terms”** for instructions on adding terms and conditions to a contract.
REQUEST AN IT RELEASE & PERMIT (R&P)

Overview

- **What’s Covered**: This section walks through the process of requesting an IT R&P for an Agency Administered Contract that has an IT commodity.
- **Used When**: An agency requires an IT R&P to be created for their contract.
Step-by-Step Instructions for Submitting a Hosted Catalog Pcard Purchase

1. Navigate to the **Header** tab.

2. Click the **IT** checkbox.

If you are requesting biennium Controlling Board approval as part of this contract, select the **Biennium Fiscal Year 1** and **Biennium Fiscal Year 2** and then enter the **Biennium Fiscal Year Amount** for each fiscal year.
Step-by-Step Instructions for Submitting a Hosted Catalog Pcard Purchase

3. Navigate to the **Negotiated Terms** tab and enter the sum of the Biennium Fiscal Year Amount fields in the **Contract Not To Exceed** field on the **Negotiated Terms** tab of the contract.

Click **Save** and then continue to populate the remaining details for your contract. Once your contract is submitted and any Supplier negotiations and internal approvals are received, your contract will automatically route for the necessary IT approvals (e.g., IT SIM, IT SME, EITC Analysts, etc.). After IT has completed their review, an IT R&P number will be generated and will be linked on the Release & Permit field on the header of the contract. You will receive an email notification once the necessary approvals have been received.
Overview

- **What’s Covered**: This section walks through the process of adding payment information and negotiated terms to a contract record.
- **Used When**: A contract record is created in Ohio|Buys.
Navigate to the Negotiated Terms tab.

The fields on the Negotiated Terms tab are not mandatory, but many of them have downstream impacts to the Purchasing process.
For a full guide to leveraging contract fields, refer to the [Contract Field Guide](#) at the end of this document.

Below are key fields that have downstream impacts to the Purchasing process.

- **Revenue Share %**: This field needs to be completed if the contract is part of a revenue share.

- **Fund Code**: This field will pre-populate if the contract is part of revenue share. It denotes which fund Revenue Share payments are deposited to.

- **Contract Not to Exceed**: This field is important if there is a spend ceiling for the contract. Purchases against the contract that exceed the ceiling will be blocked.
  
  ▲ Purchases from an Agency Administered contract will trigger a blocking alert if they exceed $50,000 in a fiscal year. In those cases, users should add any associated Controlling Board numbers to the Controlling Board field on the Header Tab of the contract. Users may add multiple Controlling Board numbers to this field if necessary.

- **Payment Terms**: The value in this field transfer into OAKS. Will default to “due immediately” if no other value is selected.

- **Chart of Account Values (section)**: If pre-determined chartfield information for a purchase requisition needs to be established, these values can be documented here. If COA values are established, they will still be editable on the purchase requisition.

You have now completed the steps for adding negotiated terms and payment to a contract in Ohio|Buys. To complete the remaining contract details, refer to "[Upload Documents](#)" for instructions on uploading documents as attachments to the contract record.
Overview

• **What’s Covered:** This section walks through the process of uploading documents to a contract record in Ohio|Buys.

• **Used When:** A contract record is created in Ohio|Buys and has a contract document or supplemental documents that should be attached.
Step-by-Step Instructions for Uploading Documents

▲ Procurement Managers, Agency Procurement Managers, Printing Procurement Managers, or DOT Procurement Managers are automatically able to add documents to certain types of contracts (e.g., Agency Procurement Managers can add documents to Agency Administered contracts). In addition to these types of users, the user who is listed as the "Contract Responsible" for the contract is also add documents to their own contract; however, contract contacts who are not the "Contract Responsible" and/or do not have a Procurement Manager profile will be unable to add contract documents.

▲ Users with the Contributor/SME profile on the Contact tab will not necessary have the ability to add contract documents, but will be able to review and redline Main Contract documents.

▲ When a contract is created from a solicitation, a Contract Analyst has the ability to select which solicitation documents are carried over to a contract; however, if you would like to include Supplier uploaded documents that were part of a response to a questionnaire, these documents must be downloaded from Ohio|Buys and manually uploaded to the associated contract. To easily download these documents, navigate to the Analyze & Award tab of the solicitation, click the Checkbox icon(s) for the Supplier proposals you would like to download, and then click Download selected proposals. Doing this will download all Supplier upload proposal documents to your computer, which can then be uploaded to a contract as needed.

▲ If you plan to author the contract outside of Ohio|Buys, refer to the Contract Authoring (MS Word) section of this learner guide.

The Documents tab can be used to house supporting documents for a contract. To upload a document, navigate to the Documents tab.

Under the Supplemental Documents section, click Create Document.
Select your document type.

- **Confidential Document:** Only visible to the contract team in the confidential documents tab, and users with the Confidential Documents role. An example would be specific information related to a subcontractor like pricing.
- **Internal Document:** Visible to all agency users who can see that contract.
- **Public Document:** Documents that are to be posted publicly. An example would be a redacted version of the entire contract document (since an authored document is not posted to the public portal). These are visible to any agency users who can see the contract internally and all public visitors.
- **Supplier Confidential Document:** These documents are only visible to the contract team, Suppliers on the contract, and users with the Confidential Documents role. An example of this would be floor plans of building that should only be visible to the internal and supplier contacts on the contract, not all State users with access to the contract.

Complete the mandatory fields.

a) **Title:** Insert the title of the document.

b) **Version:** The version number of the contract.

Complete the non-mandatory fields as necessary.

a) **Summary:** A thorough description of the document can be added here.

b) **Attachments:** The document can be uploaded here.

da) To save as a draft and finish later, click **Save as draft**.

b) To save as a draft and close the window, click **Save & Close**.

c) To publish the final version, click **Publish**.

d) If you have saved a draft, but wish to cancel the document click **Delete**.

You have now completed the steps for uploading documents to a contract in Ohio|Buys. To complete the remaining contract details, refer to "Confirm a Price List" for instructions on reviewing the price list on a contract record.
CONFIRM A PRICE LIST & ADD CONTRACT TAGS

Overview

- **What’s Covered**: This section walks through the process of reviewing the initial price list that is used during negotiations. This includes adding contract tags as applicable.

- **Used When**: A contract record is created in Ohio|Buys.
Confirm a Price List and Add Contract Tags

Step-by-Step Instructions for Confirming a Price List

1. Confirming a price list is an opportunity for a user to review the details of items that have been transferred from a solicitation or are being added as part of the contract setup process. The price list should reflect the items housed within the contract document and functions as a “cheat sheet” for anyone viewing the contract record. It is also the precursor for the catalog. The price list is where catalog items associated with the contract are listed. For more information managing catalogs refer to the Managing Hosted Catalogs Learner Guide.

   During Negotiations, the catalog import process should be initiated and occur simultaneously with the contract approval process. If not, items may be added to the catalog with missing information. For more information on the process for importing a hosted catalog or initiating a punchout catalog, refer to the Managing Hosted Catalogs Learner Guide.

   From within the contract, navigate to the Price List tab.

   Review the displayed item grid to see the goods and/or services that are offered as part of the contract.

   ▲ If you would like add tags to your contract’s price list, select the appropriate tags (e.g., Dealer, Mandatory – First Requisite Program, etc.) from the Contract Tags field and then click the Save button. Adding tags on this page will ensure the contract’s goods and/or services are displayed by default on the Browse Items page. You should only add tags to your contract as applicable.

   ▲ To remove a Contract Tag click the X icon next to the tag you would like to remove and then click Save.
If updates need to be made to an item, select the **Pencil (✏️)** icon next to the item.

Review and update the Product Information as needed.

⚠️ The Bidder/Supplier will carry into the item information as the **Manufacturer**. To avoid errors during purchasing, the Supplier must be identified as a Manufacturer. To add the Supplier as a Manufacturer, submit a request to the Catalog Management team by emailing ohiosharedservices@ohio.gov.

⚠️ For more information on how to use these fields, refer to the Managing Hosted Catalogs Learner Guide.
To update the item information, scroll down to the bottom of the page to the **Other Items** section and select the **Pencil (✏️)** icon next to the item.

Review and update the Item information as needed.

For more information on how to use these fields, refer to the **Contract Field Guide** at the end of this document.

▲ If added to the Team, the Approvers and the Supplier will be able to review this information.

You have now completed the steps for confirming a price list on a contract in Ohio|Buys. To complete the contract details, refer to "**Adding Dealers**" for instructions on adding dealers to a contract.
Overview

- **What’s Covered**: This section walks through the process of adding Dealers to a contract record.
- **Used When**: A contract record is created in Ohio|Buys and dealers will need to be listed on the contract.
From within the contract, navigate to the Dealer tab.

1. a) **Click Add Dealers.**
   - Dealers are entities that are authorized to resell a product, supply or service from a product or supply manufacturer, and/or service provider.
   - For example, Lenovo would be the parent Supplier or contractor on a contract, but a dealer would be a Supplier that fulfills the purchase order for the State.

2. b) Input the name of the dealer in the mandatory Dealer field. Select the applicable dealer from the relevant results.

3. c) Populate the Dealer ID field as necessary.
   - The Dealer ID will be appended to the end of the contract number (e.g. “-1”) to create the dealer’s contract record in OAKS and referenced on the purchase order line (when applicable). This field is not automatically populated.

4. e) If you want to add another dealer, click **Save & Close**, **Click Add Dealers**, and repeat steps b, c, and d.

5. f) Once you finish adding dealers, click **Save & Close** to return back to the contract record.

You have now completed the steps for adding dealers to a contract in Ohio|Buys. To complete the contract details, refer to “Add Subcontractors” for instructions on adding subcontractors to a contract.
Overview

- **What’s Covered**: This section walks through the process of creating a contract record within Ohio|Buys.
- **Used When**: A contract record is created in Ohio|Buys and subcontractors will need to be listed on the contract.
Add Subcontractors

Step-by-Step Instructions for Adding Subcontractors

From within the contract, navigate to the Subcontractor tab.

1. a) Click **Add Subcontractors**.
   
   ▲ Subcontractors are companies that have been contracted to perform a portion of the work within the contract. These entities will be selected by the primary Supplier on the contract.

   b) Input the name of the subcontractor in the mandatory **Subcontractor Name** field.

   c) Select the applicable subcontractor from the relevant results.

   e) If needed, complete the following non-mandatory fields:
      
      • Effective Date
      • Expiration Date
      • Embedded Dollar Amount (applies to competitive contracts only)
      • Embedded Percentage (applies to competitive contracts only)
      • Estimated Dollar Amount (Non-Embedded)
      • Estimated Percentage (Non-Embedded)

   f) If you want to add another subcontractor, click **Save & Close**, click **Add Subcontractors**, and repeat steps b, c, and d.

   g) Once you finish adding subcontractors, click **Save & Close**.

You have now completed the steps for adding subcontractors to a contract in Ohio|Buys. To begin the review and approval process, refer to "Reviewing & Executing Contracts" for instructions on negotiating with a Supplier, approving a contract, and electronic signatures using OneSpan Sign..
Overview

- **What’s Covered:** This section walks through the process of authoring a contract directly in Ohio|Buys using Native Authoring.
- **Used When:** A contract is created in Ohio|Buys and the document needs to be drafted
From within the contract, navigate to the **Documents** tab.

Under **Main Documents**, click **Create Document** and select **Main Contract**.

▲ Only the user listed as Responsible on the contract team will have the ability to add Main Documents. All other team members will have the ability to edit the documents after they have been added.

Select **Native Authoring** and click **OK**.

Complete the mandatory fields and click **Save**.
Contract Templates and Master Clauses can be used to start drafting a contract.

**a)** To insert a contract template, select a template from the **Select Template** field.

**b)** To insert a contract clause, select the **Add Master Clause**. Use the **Keywords** field to search for the clause name and select the **insert (        )** icon next to it. When finished inserting clauses, click the **X** icon on the pop up window.

**c)** To revert the contract back to the previous version, click **Resynchronize with last version**.

**d)** **Mark All Comments as Read** will mark each comment on each clause as read.

---

Text can also be typed directly into the contract and re-formatted using the Text Editor.

**a)** To insert a new clause, click **New Clause** and confirm by click **OK**.

**b)** Click in the area of the clause you wish to edit. Text can be typed or copy/pasted.

---

When finished authoring, click **Save & Close**.
Step-by-Step Instructions for Authoring a Contract

While using Native Authoring, users can switch to MS Word Authoring. However, once the switch has been made Native Authoring can no longer be used to author future versions.

To switch to MS Word Authoring, click **Switch to Word Redlining**.

You have now completed the steps for authoring a contract in Ohio|Buys. To complete the steps for reviewing and approving a contract, refer to [Reviewing & Executing Contracts](#).

If you are authoring a contract using MS Word Authoring, refer to [Contract Authoring (MS Word)](#).
CONTRACT AUTHORING (MS WORD)

Overview

- **What’s Covered**: This section walks through the process of authoring a contract directly in Ohio|Buys using Microsoft (MS) Word Authoring.
- **Used When**: A contract is created in Ohio|Buys and the document needs to be drafted
From within the contract, navigate to either the Documents tab.

Under Main Documents, click Create Document and select Main Contract.

Select MS Word Authoring and click OK.

▲ Only the user listed as Responsible on the contract team will have the ability to add Main Documents. All other team members will have the ability to edit the documents after they have been added.

Complete the mandatory fields, upload the initial contract document, and click Save.
To further edit the document, click **Edit Document**. The contract will open in Microsoft (MS) Word.

▲ Microsoft (MS) Word must already be installed on the user’s computer in order to edit the contract. In addition, it is highly recommended to turn Track Changes in MS Word on before making edits.

When finished editing the document, click the save icon in MS Word. 📝

The MS Word program will close. To close out of the document in Ohio|Buys, click **Save & Close**.

You have now completed the steps for adding subcontractors to a contract in Ohio|Buys. To complete the steps for reviewing and approving a contract, refer to [Reviewing & Executing Contracts](#).

If you are authoring a contract using Native Authoring, refer to [Contract Authoring (Native)](#).
SUBMIT A CONTRACT FOR REVIEW

Overview

• **What’s Covered**: This section walks through the process of submitting a contract into the contract workflow.
• **Used When**: A contract record has been fully created in Ohio|Buys and is ready to be sent for approval
Submit a Contract for Review

Step-by-Step Instructions for Negotiating with a Supplier

1. After you have added the necessary details for your contract (i.e., contacts, payment & negotiated terms, documents, price list, dealers, and subcontractors), your contract can be submitted into the contract workflow for the necessary approvals.

2. If you would like to have a Contributor/SME review your contract before it is formally submitted into the workflow, navigate to the Workflow tab of your contract and use the Add a comment section to add comments and send a notification to the desired Contributor/SME. To do this, enter comments in the Comment field, select the desired Contributor/SME(s) from the Send to drop-down menu, and click Save. The Contributor/SME(s) can then review the contract and submit main contract document redlines as needed. Once they are done with their review, they should add relevant comments on the Workflow tab of the contract.

3. To open the contract, log in to Ohio|Buys. From the Main Menu Navigation bar, click Contracts and then select Browse Contracts from the drop-down menu.

4. Enter relevant search terms in the Keywords field and then click Search. Once you have found your contract, click the Pencil (✏️) icon to open it.

5. If no further updates are required, click Submit. The contract will then be sent to the Supplier unless the Bypass Negotiations? Checkbox on the Header tab of the contract has been selected.

You have now completed the steps for submitting a contract for review in Ohio|Buys. To review Supplier negotiations, refer to "Negotiate with a Supplier" for instructions on how to review Supplier redlines.
REVIEWING & EXECUTING CONTRACTS

Topics

• Negotiate with a Supplier
• Review and Approve a Contract
• Sign a Contract Using OneSpan Sign
• Upload a Signed Contract
REVIEW AND APPROVE A CONTRACT

Overview

- **What's Covered**: This section walks through the process of reviewing and approving a contract record.
- **Used When**: A contract is routed to a Legal Approver or Other Approver during the contract workflow.
Step-by-Step Instructions for Reviewing and Approving a Contract

1. Contacts with the Legal (Contract) role will be pulled in to review during the Legal Approver step in the workflow.
2. Contacts with the Other Approver (Contract) role will be pulled in to review during the Other Approver steps in the workflow.
3. You will receive an email notification when you have a contract to review and it will also be visible on the OhioBuys homepage as an open workflow task (“Legal Approver” or “Other Approver”) in your My Pending Validations box.

Log in to OhioBuys. Under My Pending Validations, click the object hyperlink next to the contract that requires your review.

To review the authored contract, navigate to the Documents tab and click the Pencil (-pencil) icon next to the document you would like to review.

Existing comments can be viewed or new comments can be added by selecting the Blog (-pencil) icon next to a clause.

Enter a comment.

Click Save & Close.
Click **Save & Close** to return back to the contract shell.

When your review is complete, click **Approve**.

▲ If you would like to reject the contract, click **Reject**.

▲ You will be required to enter a reason for your rejection. The contract will be returned to the Draft status and the Responsible team member.

You have now completed the steps for reviewing and approving a contract in Ohio|Buys. To begin the process of signing a contract, refer to "Sign a Contract with OneSpan Sign" for instructions on how to use OneSpan Sign to capture electronic signatures.
SEND A CONTRACT FOR SIGNATURE USING ONESPAN SIGN

Overview

• What’s Covered: This section walks through the process of sending a contract for electronic signature using OneSpan Sign.

• Used When: A contract has been created and undergone all review and approvals.
When all Reviewers/Approvers have approved, the contract will enter the Contract Signature step in the workflow and appear in the **Pending Validations** for the Contract Responsible user.

Log in to Ohio|Buys and select the name of the contract in the **Pending Validations** section.

Navigate to the Documents tab and select the checkbox ( □ ) next to the final version of the contract.

Click **Create Signature Transaction**.

You will automatically be redirected to OneSpan sign.  
▲ If your internet browser is configured to block pop ups, then you will need to turn off your Pop Up Blocker and perform this step again.

a) One inside of OneSpan sign, you will need to add recipients. These individuals will be everyone that needs to sign the document within the State and on the Supplier side.
b) Complete the mandatory fields for the recipient.

After adding all of your recipients, you will need to add the signature fields. To add a signature field:

a) Select the name of the recipient that should sign.
   ▲ If the correct recipient is not selected prior to inserting the field, users may not sign in the correct
   a) Drag and drop the signature field in the area of the contract where the person should sign.
Step-by-Step Instructions for Sending a Contract for Signature Using OneSpan Sign

4 ▲ Each field will be color coded to match the color for each recipient.  
▲ Fields can be re-sized to fit the area allotted within the contract document.

5 After inserting all of the correct fields, click the Send to Sign button and confirm by clicking Send.

▲ An email will be sent to each recipient with a link to the contract.

You have now completed the steps for sending a contract for electronic signatures using OneSpan Sign in Ohio|Buys. To manage a contract during its lifecycle, refer to "Managing Contracts" for instructions on processing contract change requests, creating amendments, suspending contracts, and terminating contracts.
UPLOAD A SIGNED CONTRACT

Overview

• What’s Covered: This section walks through the process of signing a contract outside of Ohio|Buys then uploading the signed document.
• Used When: A contract has been created and undergone all review and approvals outside of Ohio|Buys.
### Upload a Signed Contract

You have now completed the steps for uploading a signed contract in Ohio|Buys. To manage a contract during its lifecycle, refer to "Managing Contracts" for instructions on processing contract change requests, creating amendments, suspending contracts, and terminating contracts.
MANAGING CONTRACTS

Topics

• Processing a Change Request
• Amending a Contract
• Suspending a Contract
• Terminating a Contract
PROCESS A CHANGE REQUEST

Overview

• **What’s Covered**: This section walks through the process of fielding a change request for a contract from a Supplier in Ohio|Buys.

• **Used When**: A change request for a contract is submitted in Ohio|Buys by a Supplier.
Suppliers can submit a change request for various reasons. When a change request is submitted, the contract will appear in the Pending Validations for the Contract Responsible user.

You will receive an email notification when you have a contract change request to review and it will also be visible on the Ohio|Buys homepage as an open workflow task (“Analyst Review”) in your My Pending Validations box.

Log in to Ohio|Buys. Under My Pending Validations, click the object hyperlink next to the contract change request that requires your review.

Navigate to the Supplier Change Request tab to view the request details.

2 Result(s)
Process a Change Request

Step-by-Step Instructions for Processing a Change Request

To approve the Supplier’s request, click **Approve Supplier Change**. An amendment will need to be created.

![Approve Supplier Change]

For more information on creating an amendment, refer the [next section of this learner guide](#).

To reject, click **Reject Supplier Change**. You will be required to enter a reason for the rejection. The contract will remain in Signed status.

![Reject Supplier Change]

You have now completed the steps for processing a change request for a contract in Ohio|Buys. To review how to amend a contract, refer to "[Create an Amendment](#)" for instructions on creating an amendment from an existing contract.
CREATE AN AMENDMENT

Overview

• **What’s Covered**: This section walks through the process of creating an amendment to an existing contract in Ohio\Buys.
• **Used When**: A change to a contract or its details needs to be made and reviewed/approved in Ohio\Buys.
Create An Amendment

Step-by-Step Instructions for Submitting a Hosted Catalog Pcard Purchase

▲ Amendments can be created after a need arises internally within the State or Agency, or at the request of a Supplier. The change request must be fully approved first.

▲ Amendments can also be future dated meaning the **Effective Date** can be set for a date that is after the date the amendment was created. The amendment won’t supersede the original contract until the effective date occurs. The original contract will no longer be active once the amendment is effective.

▲ If needed, the Contractor Owner can be edited / updated as part of an amendment process. Please note, this field is only present on contracts that interface to OAKS and is not present on Agency Administered contracts.

▲ As overages are approved, agencies can create an amendment and increase the Contract Not to Exceed field to check against the cumulative balance of the Controlling Board Number field.

To create an amendment, log in to Ohio|Buys. From the Main Menu Navigation Bar, click **Contracts** and then click **Browse Contracts** from the drop-down menu.

2

Search for your contract using the **Keywords** field and click the **Pencil** ( ) icon next to the contract that needs to be amended.

3

Click **Other Actions** and then select **Create Amendment**. You will be asked if you are sure you want to amend the contract. Click **OK** to proceed. A new contract will be created in Draft status that will be listed as a child of the original contract.

Make updates to the contract as needed and then click **Submit**. Amendments will go through the full approval process for contracts.

4

Refer to the “Creating a Contract Record” section of this learner guide for details on how to update and complete a contract. If you are authoring an amendment directly in Ohio|Buys, refer to the “Contract Authoring” section.

You have now completed the steps for amending a contract in Ohio|Buys. To review how to suspend a contract or “put it on hold”, refer to the "Suspend a Contract" section of this learner guide.
Overview

- **What’s Covered**: This section walks through the process of suspending a contract or “putting it on hold” in Ohio|Buys.
- **Roles**: Procurement Managers, DOT Procurement Managers, Printing Procurement Managers, Real Estate Procurement Managers
- **Used When**: A contract in Ohio|Buys needs to be put on hold or suspended.
Step-by-Step Instructions for Suspending a Contract

1. Log in to Ohio|Buys. From the Main Menu Navigation Bar, click **Contracts** and then click **Browse Contracts** from the drop-down menu.

2. Search for your contract using the **Keywords** field and click the **Pencil (   )** icon next to the contract that needs to be suspended.

3. Navigate to the contract header. Engage the **On Hold** slider.

4. Click **Suspend/Terminate**.

   ▲ The contract is then moved to a status of Suspended and sent to the Pending Validations for individuals with the Procurement Manager profile. Other individuals are pulled in based on the contracting entity, contract sub-type, contract type, or how the contract is administered (state-wide or agency administered). DOT Procurement Managers, Printing Procurement Managers, Real Estate Contract Analysts, and Agency Contract Managers are pulled in respectively in those cases.

   ▲ The users pulled in have the ability to reactivate the contract by clicking **Un-suspend** if there are no changes (i.e., contract amendments) needed. Alternatively, the Contract can remain in suspended status and the Contract Responsible user can create an Amendment.

You have now completed the steps for suspending a contract in Ohio|Buys. To review how to terminate a contract, refer to the "**Terminate a Contract**" section for instructions on terminate a contract prior to its original end date.
CLONE A CONTRACT

Overview

- **What’s Covered**: This section walks through the process of cloning a contract in Ohio|Buys.
- **Used When**: A contract in Ohio|Buys needs to be duplicated, but not amended.
### Clone a Contract

#### Step-by-Step Instructions for Cloning a Contract

1. **Log in to Ohio|Buys.** From the Main Menu Navigation Bar, click **Contracts** and then click **Browse Contracts** from the drop-down menu.

2. **Search for your contract using the Keywords field** and click the **Pencil** (✏️) icon next to the contract that needs to be suspended.

3. **Click Clone Contract then click OK.**

4. A copy of the existing contract has been created. All of the information from the Header of the original contract will carry over to the duplicate except for the **Market Type** field. You will also need to update the **Effective Date** so that it is not back-dated.

   Contacts and Negotiated Terms will also carry over to the duplicated contract, but information from other tabs will not. (e.g., Documents, Price List, Dealers, etc.)

   The cloned contract should be edited and set up as a new contract. It will also need to go through the appropriate approval workflow according to how the contract is set up. For more information on setting up a contract, please refer to the **Creating a Contract Record** section of this learner guide.

5. You have now completed the steps for suspending a contract in Ohio|Buys. To review how to terminate a contract, refer to the "**Terminate a Contract**" section for instructions on terminate a contract prior to its original end date.
TERMINATE A CONTRACT

Overview

• **What’s Covered**: This section walks through the process of terminating an active contract in Ohio|Buys.
• **Roles**: Procurement Managers, DOT Procurement Managers, Printing Procurement Managers, Real Estate Procurement Managers
• **Used When**: A contract that is active needs to be terminated prior to its end date.
## Terminate a Contract

### Step-by-Step Instructions for Terminating a Contract

<table>
<thead>
<tr>
<th>Step</th>
<th>Instructions</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Terminating a contract is a decision that is pre-determined prior to initiating the process in Ohio</td>
</tr>
<tr>
<td>2</td>
<td>Search for your contract using the <strong>Keywords</strong> field and click the <strong>Pencil (✏️)</strong> icon next to the contract that needs to be terminated.</td>
</tr>
<tr>
<td>3</td>
<td>Navigate to the contract header. Enter a <strong>Termination Date</strong> and <strong>Termination Justification</strong>.</td>
</tr>
<tr>
<td>4</td>
<td>Click <strong>Suspend/Terminate</strong>. The contract will expire when the termination date is reached.</td>
</tr>
</tbody>
</table>

You have now completed the steps for terminating a contract prior to its original end date in Ohio|Buys. For more information on the contract management process and the various fields on a contract record, refer to the "Appendix".

Contract Owner | The organizational entity that functions as the lead/point of contact for the contract |  
Index Number | Internal Contract Number | State’s internal contract number
Market Type | This field indicates the type of Suppliers that are on the contract (e.g. MBE, EDGE, CRP) | Example: Minority Business Enterprise “3” Contract
Minimum Contract Purchase Amount | Indicates that a single request must contain a minimum total value related to this contract in order to become a purchase order | The minimum total value could be the sum of different lines within the same request. Will trigger a blocking alert for all requests containing items from this contract
Name | The name or label for the contract |  
Participating Organizations | The organizations that are allowed to access and purchase items from this contract | These values will limit who can see items related to this contract while shopping
Pre Governance Contract |  |  
State Contract Number | The contract number assigned by the State (e.g., CTR002226) | This does auto-populates with the CTR number generated by Ohio|Buys but can be modified as needed.
Supplier | This is the Contractor or organization that is entering into the agreement with the State | Supplier must already have a record in Ohio|Buys in order to be selected

## Contract Field Guide: Contract Contacts (1/1)

**Object** | **Definition** | **Additional Info**
--- | --- | ---
Add Supplier Contacts | This section lists Supplier Contacts that are responsible for all activities related to this contract (e.g. renegotiation, renewal, notifications) | Contacts must be entered into Ohio|Buys by the Supplier and must be assigned a role of “Contract Contact”

Select Team | This section lists internal contacts or State users responsible for all activities related to this contract | Each user is assigned a role or this particular contract: Responsible (Contract), Contributor/SME (Contract), Legal (Contract), Other Approver (Contractor), or Reviewer (Contract). There must always be one user listed as Responsible. Users with the Contributor/SME and Legal local profiles have editing rights, approvers can review and approve/reject, and reviewers can only view the contract.
