Strategic Plan

Wayne McCulty
CRP Strategic Plan

What is it?
Strategic Planning

Strategic planning is an organization's process of defining its strategy, or direction, and making decisions on allocating its resources to pursue this strategy.

It’s a Business Plan...on Steroids!

- In order to determine the direction of the organization, it is necessary to understand its current position and the possible avenues through which it can pursue a particular course of action.

- Three questions to ask when developing a strategic plan:
  1. What do we do?
  2. For whom do we do it?
  3. How do we excel / improve?
Strategic Plan Steps

• Establish Strategic Planning Team
• Determine Core Values
• Establish a Mission Statement
• Create a Vision Statement
• Visualize where you want the organization to be in 5 years
• Analyze where the organization is today (SWOT analysis)
• What are the gaps between today and future image?
• Develop Initiatives from those gap elements
• Establish goals and objectives from the initiatives
• Prioritize the goals
• Develop a schedule to complete the goals with timelines.
• Assign goals to teams for execution and completion
• The Strategic Planning Team continues to meet quarterly to monitor and track goal progress and make any necessary adjustments
• When 5 year plan is achieved – develop another 5 year plan by starting again.
