

## Women in Technology

Research shows that higher levels of gender diversity can lead to enhanced business outcomes.

The State of Ohio recognizes the importance of keeping talented female employees in the technology space. To demonstrate that commitment the state offers many resources for development.

Building a career as a woman in technology is not just about technical ability. It is also important that one develop strong business acumen and sharpen leadership skills. Increasing skills in these areas will help prepare you for potential leadership roles.

Whether you simply want to build your technical knowledge, build the skills to advance, or you want to work toward a professional certification, LOD offers a variety of online resources to help you.

Explore these learning resources to gain skills you need to build stronger digital and technology skills.

<a href="#">Personal Skills for Effective Business Analysis</a>	Course	22 Minutes
<a href="#">Decisions: Making the Right Move</a>	Challenge	15 Minutes
<a href="#">Jump Start Your GPS</a>	Video	2 Minutes
<a href="#">Follow Up!</a>	Video	3 Minutes
