The purpose of the health care facilities surveyor (long term care) is to conduct onsite inspections and/or surveys of health or residential care providers and suppliers in order to determine providers/suppliers compliance with Medicare and Medicaid program participation requirements and/or state licensure laws and rules and/or plan, develop, implement and evaluate training programs for professional survey staff; or plan, develop, implement and evaluate training programs for matters pertaining to minimum data set (i.e., MDS) and nurse aide training & competency evaluation program. The focus of the role of the surveyor on the survey team will vary based upon the employee's level of expertise and assigned discipline (i.e., licensed social work, registered nursing, registered sanitarian, or licensed dietitian).

At the lowest level, incumbents receive training and orientation on survey tasks and protocols, organization operational procedures, and laws and rules pertinent to their assigned discipline and/or on how to plan, develop, implement and evaluate training programs for professional survey staff; or on how to plan, develop, implement and evaluate training programs for matters pertaining to minimum data set and nurse aide training and competency evaluation program.

At the second level, incumbents conduct onsite survey independently, as part of a team, or as a team leader for assigned discipline and survey type and/or, when assigned as office-based reviewer, review survey packages prior to processing and data entry, and/or plan, develop, implement and evaluate training programs for professional survey staff; or plan, develop, implement and evaluate training programs for matters pertaining to minimum data set and nurse aide training and competency evaluation program. When assigned, employees will also precept newer surveyors in assigned discipline.

At the first supervisory level, incumbents supervise assigned health care facilities surveyors and perform one of the following options: assist higher-level supervisor in planning and coordinating survey and/or inspection activities relative to the long term care program, and where applicable, state licensure for long term care providers and suppliers, or plans, directs, organizes, prioritizes & monitors work activity of Nurse Aide Training Competency Evaluation Program (i.e., NATCEP) & minimum data set (i.e., MDS) function & ensures compliance with applicable federal & state laws & rules governing assigned programs.

At the highest level, incumbents plan and coordinate licensure surveys and/or inspection activities of long term health care providers and suppliers relative to the Medicare and Medicaid program, and where applicable, state licensure for long term health care providers and suppliers as supervisor in assigned district office, or as section chief, incumbents coordinate one or more statewide functions (i.e., all training statewide for all health care facilities surveyors; all abuse and neglect activities throughout state), and/or manage and oversee daily operations of one or more assigned district offices, and assume responsibility for all bureau programs in absence of bureau chief of long term care quality when assigned.

The entry level class works under general supervision & requires considerable knowledge of registered nursing, registered dietetics, social work, or environmental health & protection, Medicare & Medicaid regulations & provider laws & state health care facility laws & rules, survey protocols & guidelines, organization operation procedures, duties & responsibilities of survey team leader & office-based reviewer, & state licensure regulation & quality regulations in order to receive training & orientation on survey tasks & protocols applicable to long term care providers & suppliers, organization operational procedures, & laws, rules, guidelines & regulations pertinent to assigned discipline (i.e., registered nursing, licensed dietetics, licensed social work, or registered sanitarian) & assistance & consultation to be provided to other team members (i.e., identifying residents/patients with impaired psychological functioning & well-being; or assessing health status through nursing assessment techniques; or in areas of environmental health & protection; or assessing nutritional needs/status of clients/patients in health care setting) through extensive reading, program briefings & supervised participation in field activities pertaining to long term care providers & suppliers &/or on how to plan, develop, implement & evaluate training programs for professional survey staff; or to receive training & orientation/on-job training on how to plan, develop, implement & evaluate training programs & identify training needs on matters pertaining to minimum data set & nurse aide training & competency evaluation program for professional survey staff & providers or prospective providers & on how to ensure MDS reporting is being appropriately monitored & evaluated by field surveyor staff & provide consultation & assistance to surveyor staff engaged in survey & certification of long term care facilities as licensed registered nurse.
CLASS TITLE: Health Care Facilities Surveyor-Independent (Long Term Care)  
CLASS NUMBER: 61532  
PAY RANGE: 13  
EFFECTIVE: 07/01/2001

CLASS CONCEPT:
