

INFORMACAST COMMAND CENTER

Simplify the emergency notification process with an easy-to-use web interface for quickly creating and sending a mass notification.

PREPARE FOR COMMON EVENTS

InformaCast Mobile and Fusion users have access to InformaCast Command Center to quickly send a mass notification in the event of an emergency. Build icons on the homepage to trigger messages for crisis scenarios such as:

FIRES

CHEMICAL
SPILLS

SEVERE
WEATHER

MEDICAL
EMERGENCIES

ACTIVE
SHOOTER

CREATE MESSAGES WITH A FEW CLICKS

Quickly populate messages with pertinent information by answering a short series of questions when you click on the scenario icon. Questions can include:

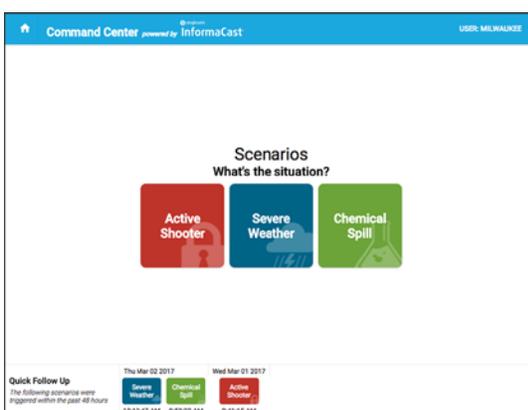

- The building the emergency is taking place on
- The floor when the incident occurs
- The type of medical event (if applicable)
- Other customizable questions that may be specific to your organization

FOLLOW-UP WITH MORE INFORMATION

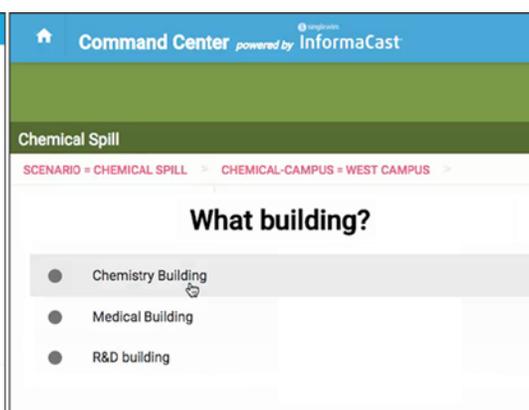

After a mass notification is sent, users will be able to:

- See that the message was successfully distributed
- Have the opportunity to follow up with more information
- Share an "all clear" clear message if the issue has been resolved
- Review past messages and send follow-ups if necessary

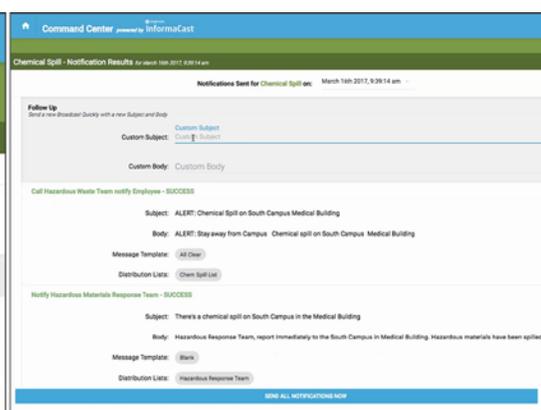

FEATURES

Easy to use icon based interface

Customized notification options

Immediate feedback on alert status
