Software and Services

At Plantronics, we have always provided unparalleled communication solutions. Now we provide information to take those solutions farther with our cloud-based software designed to help IT departments better manage their Plantronics products, while delivering valuable insights.

**PLANTRONICS MANAGER PRO**
- Capture detailed inventory tracking, check softphone and firmware versions, and detect potential known conflicts before they happen
- Generate insights to gauge headset adoption and understand usage patterns to help identify potential training opportunities across the organization
- Improve the adoption of voice applications by capturing details such as the percentage of speech on each side of the call, the amounts of silence and over-talk
- Ensure employee safety and compliance with regulations using data provided by Acoustic Analysis

**PLANTRONICS MANAGER**
- Deploy device firmware upgrades
- Enable or disable device settings according to company policy or for regulatory compliance
- Monitor Plantronics device settings and firmware updates
PLANTRONICS HUB (DESKTOP)

• Enable device-level call control with call answer/end, mute, and volume adjust
• Access intuitive user features such as visible mute status, battery status, and mute control
• Customize device settings

PLANTRONICS HUB (MOBILE)

• Use Find MyHeadset to locate your misplaced headset
• Customize device settings
• Manage smart sensor options
• Explore headset features
Music and Entertainment

Music is more than just a beat to keep in the background. It is a tune you are inspired by, a voice to carry you away, a melody you remember forever. And now you can enjoy all the music you love, with none of the compromises: no tangled cords, no restricting wires, no lo-fi earbud sound. Just an incredible audio experience and the freedom to take it anywhere. (3.5 mm)

BACKBEAT PRO 2
• Immersive, high-res sound
• On-demand active noise canceling (ANC)
• Up to 24 hours of continuous wireless streaming
