

Important change to your prescription benefit program

Effective July 1, 2022

Optum Rx manages the pharmacy benefits plan for the State of Ohio. We want to inform you of a change to your prescription drug plan.

Maternity Medications

Starting July 1, 2022, the State of Ohio covers maternity medications in the drug categories below at a \$0 copay. You must get prior authorization before receiving this medication.

A prior authorization is an approval we give your doctor before the prescription can be covered. Or, you can call us, and we can help start the process.

Drug categories covered at \$0 copay

Blood pressure medications (ex: labetalol, nifedipine)

Thyroid medications (ex: levothyroxine)

Topical and oral antihistamines
(ex: cyproheptadine, pomethazine)

Topical and oral corticosteroids
(ex: triamcinolone cream, prednisone)

Antiemetics (ex: metoclopramide, promethazine)

Antidepressants (ex: citalopram, duloxetine)

Anticoagulants (ex: enoxaparin, Fragmin)

Terbutaline (premature labor injection)

Progestins (premature labor injection)
