From: Ohio 9-1-1 Program Office

RE: 2022 Continuing Education

Hello All,

The 2022 Continuing Education content is now available. As always, your Support and Compliance (S&C) checks are always a 12-month look-back, so this training would apply to your future S&C checks. This year's content is as follows:

1 – Ohio Alerts. You will need to access www.ohioamberplan.org

Once on the Ohio Amber Alert home page, you will see four icons on the right side. Click each logo to access the training video for each alert. It is recommended to proceed in the order below.

2 – 9-8-8

The attached PowerPoint is self-guided and is designed to be read by the trainee. The information includes a recap of current efforts and future plans for the 9-8-8 Suicide Prevention and Mental Health 3-digit access line.

3 – Radio Communication and Interoperability

The attached PowerPoint is timed and narrated by the MARCS Program Office and outlines the National Incident Management System (NIMS), the State Interoperability Executive Committee (SIEC) and radio interoperability.

Please contact Sharon McMurray at (614) 633-4557 if you have any questions.
